

ASSEMBLY INSTRUCTIONS

METAL GARDEN SHED

E-mail:
saleservices@madepot.com

Please read the instruction manual strictly,
Please assemble the resin garden shed in
the following steps.

SITE PREPARATION

Level the ground surface./Ebnen Sie die Bodenoberfläche./Niveler la surface du sol./Livellare la superficie del terreno./Nivelar la superficie del suelo.

Recommendation: Construct a wooden or concrete base as a foundation.

Empfehlung: Bauen Sie ein Holz- oder Betonfundament.

Recommandation : Construire une base en bois ou en béton comme fondation.

Raccomandazione: Costruire una base in legno o calcestruzzo come fondazione.

Recomendación: Construya una base de madera u hormigón como cimentación.

BEFORE STARTING ASSEMBLY

Remove all of the pieces from the 2 packages and spread them out on the ground. Before installation, please check the type and quantity of parts first.

It is recommended to use a clean work surface to spread the parts out and for pre-assembly steps. Review all instructions before you begin, continue to refer to instructions during assembly.

Be sure to follow all steps thoroughly.

Please prepare these components in advance at the beginning of each stage.

BEFORE STARTING ASSEMBLY

Entnehmen Sie alle Teile aus den 2 Verpackungen und legen Sie sie auf dem Boden aus.

Vor der Installation bitte zuerst Art und Menge der Teile prüfen.

Empfohlen wird eine saubere Arbeitsfläche zum Ausbreiten der Teile und für Vorbaustufen. Lesen Sie alle Anweisungen vor Beginn und während der Montage.

Befolgen Sie alle Schritte sorgfältig.

Bereiten Sie diese Komponenten rechtzeitig vor.

Retirez toutes les pièces des 2 emballages et étalez-les au sol. Avant l'installation, vérifiez d'abord le type et la quantité des pièces.

Il est recommandé d'utiliser une surface de travail propre pour étaler les pièces et les étapes de pré-assemblage. Lisez toutes les instructions avant de commencer, consultez-les pendant l'assemblage.

Suivez toutes les étapes minutieusement.

Préparez ces composants à l'avance à chaque étape.

Rimuovere tutti i pezzi dalle 2 confezioni e distenderli a terra. Prima dell'installazione, verificare tipo e quantità delle parti. Si consiglia una superficie pulita per disporre le parti e pre-assemblarle. Rivedere tutte le istruzioni prima e durante l'assemblaggio.

Seguire accuratamente tutti i passaggi.

Preparare in anticipo i componenti per ogni fase.

Retire todas las piezas de los 2 paquetes y extiéndalas en el suelo. Antes de instalar, compruebe tipo y cantidad de piezas. Se recomienda superficie limpia para extender piezas y preensamblaje. Revise todas las instrucciones antes y durante el ensamblaje.

Siga todos los pasos minuciosamente.

Prepare estos componentes con antelación en cada etapa.

REQUIRED TOOLS

CAUTION

Some parts have steel edges. Please be careful when handling components. Always wear work gloves, eye protection and long sleeves when assembling or performing any maintenance on your shed. Do not attempt assembly on days with strong winds or low temperatures.

Einige Teile haben scharfe Stahlkanten. Seien Sie beim Umgang mit den Komponenten vorsichtig. Tragen Sie stets Arbeitshandschuhe, Schutzbrille und langärmelige Kleidung beim Aufbau oder bei Wartungsarbeiten an Ihrem Schuppen. Versuchen Sie nicht, den Aufbau bei starkem Wind oder niedrigen Temperaturen durchzuführen.

Certaines pièces présentent des bords en acier. Soyez prudent lors de la manipulation des éléments. Portez toujours des gants de travail, des lunettes de protection et des manches longues lors de l'assemblage ou de toute opération de maintenance sur votre abri. N'essayez pas d'assembler les pièces les jours de vent fort ou de basses températures.

Alcuni componenti presentano bordi in acciaio. Fare attenzione durante la manipolazione delle parti. Indossare sempre guanti da lavoro, protezione per gli occhi e indumenti a maniche lunghe durante il montaggio o qualsiasi operazione di manutenzione del capanno. Non tentare il montaggio in giornate con forti venti o basse temperature.

Peligro! Algunas piezas tienen bordes de acero. Tenga cuidado al manipular los componentes. Siempre use guantes de trabajo, protección ocular y manga larga al montar o realizar cualquier mantenimiento en su cobertizo. No intente el montaje en días con vientos fuertes o temperaturas bajas.

CARE & SAFETY

- In case of fire, do not attempt to extinguish any burning polypropylene with water. It is unsuitable for storage of flammable or corrosive substances.
- It is of utmost importance to assemble all of the parts according to the directions. Do not skip any step.
- Please consult your local authorities if any permits are required to erect the shed.
- Periodically check shed to assure that it remains stable and that the site remains level.
- It is highly recommended to secure the shed to an immovable object or to the ground by drilling holes in the floor at the pre-marked locations and inserting proper screws into the ground (size: 1.9"-3" ,screws are not included).
- Wear safety goggles and always follow the manufacturer's instructions when using power tools.
- Wash shed with garden hose or a mild detergent solution. Using a stiff brush or abrasive cleaner could damage shed.
- Hot items such as recently used grills, blowtorches, etc. must not be stored in the shed.
- Heavy articles should not be leaned against the walls, as this may cause distortion.
- Keep roof clean of snow and leaves. Heavy amounts of snow on roof can damage the shed making it unsafe to enter.
- Although wind direction varies, it is an important factor when taking into account where to place your shed. Therefore, it is recommended to reduce wind exposure of the shed in general, and the door side in particular.
- Keep doors closed and locked to prevent wind damage.
- Do not stand on the roof.

CARE & SAFETY

- Im Brandfall darf brennendes Polypropylen nicht mit Wasser gelöscht werden. Nicht zur Lagerung von brennbaren oder korrosiven Stoffen geeignet.
- Es ist äußerst wichtig, alle Teile gemäß der Anleitung zusammenzubauen. Überspringen Sie keinen Schritt.
- Bitte erkundigen Sie sich bei Ihrer zuständigen Behörde, ob für den Aufbau des Schuppens Genehmigungen erforderlich sind.
- Überprüfen Sie regelmäßig die Standsicherheit des Schuppens und die Ebenerdigkeit des Untergrunds.
- Es wird dringend empfohlen, den Schuppen an einem unbeweglichen Objekt oder am Boden zu befestigen, indem Sie Löcher an den vorgezeichneten Stellen bohren und geeignete Schrauben (Größe: 1,9-3 Zoll, Schrauben nicht im Lieferumfang enthalten) in den Boden einsetzen.
- Tragen Sie eine Schutzbrille und befolgen Sie stets die Bedienungsanleitung des Herstellers bei der Verwendung von Elektrowerkzeugen.
- Reinigen Sie den Schuppen mit einem Gartenschlauch oder einer milden Reinigungslösung. Die Verwendung einer harten Bürste oder scheuernder Reinigungsmittel könnte den Schuppen beschädigen.
- Heiße Gegenstände wie kürzlich benutzte Grills, Lötlampen etc. dürfen nicht im Schuppen gelagert werden.
- Schwere Gegenstände sollten nicht an den Wänden angelehnt werden, da dies zu Verformungen führen kann.
- Halten Sie das Dach frei von Schnee und Laub. Starke Schneelasten können den Schuppen beschädigen und den Zutritt unsicher machen.
- Obwohl die Windrichtung variiert, ist sie ein wichtiger Faktor bei der Standortwahl für Ihren Schuppen. Daher wird empfohlen, die Windeinwirkung auf den Schuppen insgesamt – und insbesondere auf die Türseite – zu minimieren.
- Halten Sie die Türen geschlossen und verschlossen, um Windschäden zu vermeiden.
- Betreten Sie das Dach nicht.

CARE & SAFETY

- En cas d'incendie, ne tentez pas d'éteindre du polypropylène en feu avec de l'eau. Non adapté au stockage de substances inflammables ou corrosives.
- Il est d'une importance capitale d'assembler toutes les pièces selon les instructions. Ne sautez aucune étape.
- Veuillez consulter les autorités locales si des permis sont nécessaires pour ériger la remise.
- Vérifiez régulièrement la remise pour vous assurer qu'elle reste stable et que le terrain reste plat.
- Il est fortement recommandé de fixer la remise à un objet immobile ou au sol en perçant des trous dans le plancher aux emplacements pré-marqués et en insérant des vis appropriées dans le sol (taille : 1,9 à 3 pouces ; les vis ne sont pas incluses).
- Portez des lunettes de sécurité et suivez toujours les instructions du fabricant lorsque vous utilisez des outils électriques.
- Lavez la remise avec un tuyau d'arrosage ou une solution de détergent doux. L'utilisation d'une brosse dure ou d'un nettoyant abrasif pourrait endommager la remise.
- Des objets chauds tels que des grills récemment utilisés, des chalumeaux, etc., ne doivent pas être stockés dans la remise.
- Ne penchez pas d'objets lourds contre les murs, car cela peut causer des déformations.
- Gardez le toit propre de neige et de feuilles. Une quantité importante de neige sur le toit peut endommager la remise et la rendre dangereuse à entrer.
- Bien que la direction du vent varie, c'est un facteur important à prendre en compte pour placer votre remise. Par conséquent, il est recommandé de réduire l'exposition de la remise au vent en général, et du côté de la porte en particulier.
- Gardez les portes fermées et verrouillées pour éviter les dégâts causés par le vent.
- Ne vous tenez pas sur le toit.

CARE & SAFETY

- In caso di incendio, non tentare di spegnere il polipropilene in fiamme con acqua
Non adatto per lo stoccaggio di sostanze infiammabili o corrosive
- È estremamente importante assemblare tutte le parti secondo le indicazioni.
Non saltare alcun passo.
- Si prega di consultare le autorità locali se sono necessari permessi per erigere capannone.
- Controllare periodicamente il capannone per assicurarsi che rimanga stabile e che il sito rimanga livello.
- È altamente consigliabile fissare il capannone ad un oggetto immobile o al terra mediante foratura nel pavimento nelle posizioni prefigurate e inserendo viti adeguate nel terreno (dimensioni: 1,9 "-3 ", le viti non sono incluse).
- Indossare occhiali di sicurezza e seguire sempre le istruzioni del produttore quando utilizzando strumenti elettrici.
- Lavare il capannone con un tubo da giardino o una soluzione detergente leggera. Usando un pennello rigido o pulitore abrasivo potrebbe danneggiare capannone.
- Oggetti caldi come griglie usate recentemente, torce, ecc. non devono essere conservati in il capannone. Gli articoli pesanti non devono essere appoggiati contro le pareti, poiché questo può causare distorsione.
- Mantenere il tetto pulito da neve e foglie. Le pesanti quantità di neve sul tetto possono danneggiare il capannone rendendolo pericoloso per entrare.
- Anche se la direzione del vento varia, è un fattore importante quando si tiene conto dove posizionare il vostro capannone. Si consiglia di ridurre il vento esposizione del capannone in generale, e del lato della porta in particolare.
- Mantenere le porte chiuse e chiuse per evitare danni da vento.
- Non stare sul tetto.

CARE & SAFETY

- En caso de incendio, no intente extinguir cualquier polipropileno en llamas con agua. No es adecuado para el almacenamiento de sustancias inflamables o corrosivas.
- Es de suma importancia montar todas las piezas siguiendo las instrucciones. No omita ningún paso.
- Consulte con las autoridades locales si se requieren permisos para erigir el cobertizo.
- Verifique periódicamente el cobertizo para asegurarse de que permanece estable y de que el terreno sigue siendo plano.
- Se recomienda encarecidamente sujetar el cobertizo a un objeto inmóvil o al suelo perforando agujeros en el suelo en los lugares previamente marcados e insertando tornillos adecuados en el suelo (tamaño: 1,9" - 3", los tornillos no están incluidos).
- Use gafas de seguridad y siga siempre las instrucciones del fabricante al utilizar herramientas eléctricas.
- Lave el cobertizo con una manguera de jardín o una solución de detergente suave. El uso de un cepillo duro o un limpiador abrasivo puede dañar el cobertizo.
- No se deben almacenar objetos calientes, como parrillas recién usadas, soplete, etc., en el cobertizo.
- No se deben apoyar objetos pesados contra las paredes, ya que esto puede causar deformaciones.
- Mantenga el techo limpio de nieve y hojas. Grandes cantidades de nieve en el techo pueden dañar el cobertizo y hacerlo inseguro para entrar.
- Aunque la dirección del viento varía, es un factor importante a tener en cuenta a la hora de colocar el cobertizo. Por lo tanto, se recomienda reducir en general la exposición del cobertizo al viento, y en particular la del lado de la puerta.
- Mantenga las puertas cerradas y cerradas con llave para evitar daños por el viento.
- No se pare en el techo.
