

# WATER STORAGE SOLUTIONS LIKE NO OTHER

## EXTRA LIGHT

Ultra-light and ultra-packable, the Seeker holds water when you need it and packs down small when empty. An essential for every backpacking or camping trip.

SEEKER™ 6L, 4L, 3L, 2L

## + FILTRATION

**SQUEEZE FILTER** Setting the standard for ultra-light backcountry water storage and filtration. The Seeker+ 3L comes with an integrated filter cap that can be rolled or squeezed for quick fill and go hydration.

SEEKER™+ 3L

**GRAVITY FILTER** Designed for easy water collection and storage that can be hung to deliver gravity filtered potable water through its included inline filter. The Seeker+ 6L is ideal for small groups in the backcountry.

SEEKER™+ 6L

## ULTRA DURABLE

Built rugged with high strength TPU, the Expedition features a low profile daisy chain for lash points and an unbreakable webbing handle ideal for attaching to your rig or moto.

EXPEDITION™ 8L

## HIGH CAPACITY

Built for long days on the trail, the lightweight Pioneer is the ideal medium to large capacity water storage and delivery system for backcountry group adventures.

PIONEER™ 10L, 6L

# WATER STORAGE

EXTREMELY PACKABLE & DARN TOUGH

## FILTER COMPATIBLE

Ultra durable and highly functional, our water storage bags are designed to accommodate a variety of backcountry water filters. From simple filter screw caps to gravity fed filtration systems, you can access potable water anywhere.

## MARKET OVERVIEW

- + The U.S. backcountry water storage market has grown almost 45% over the past two years.
- + HydraPak holds 47% US market share and is the clear leader in the backcountry water storage category.
- + The Seeker 2L and 3L are two of the top three best sellers in the market, and the 4L is growing fast in sales.

## ULTRA-LIGHT WATER STORAGE

Get out and stay out. The Seeker is a durable, ultra-light hydration storage system for all your long haul excursions. A weather resistant pour handle, and two side lash points for hanging or pack attachment make it the perfect backcountry tool. You can freeze it to use as an ice pack or keep it in your camp kit for your go-to filter bag. Adventure seekers, this one's for you.

### FEATURES

- EASY TO FILL** - Large 42MM opening makes it easy to fill. Tethered screw cap creates a convenient carry loop for holding the Seeker upright when filling.
- TETHERED SCREW CAP** - Leakproof, 42MM screw cap with tear resistant, removable tether.
- FILTER COMPATIBLE** - Compatible with most 42MM threaded water filters including the new HydraPak 42MM Filter Cap and Katadyn BeFree.
- PACKABLE** - Fold or crush to collapse down and pack into the included storage bag.
- LASH POINTS** - Two load bearing side lash points for attaching to your pack, rig or setting up a gravity feed.
- LOW PROFILE HANDLE** - Durable, coated handle for easy pouring and carrying.

# SEEKER™+ 3L

ULTRA-LIGHT WATER STORAGE + BUILT-IN FILTRATION

Access potable water anywhere. Our go-to durable, ultra-light backcountry water storage solution is now a must have water filtration solution. It's ideally designed for easy water collection and storage that can be rolled and squeezed to filter into other camp containers. Topped with a dust cover and twist-filter nozzle for quick fill and go filtration, plus a weather resistant handle and lash points to keep it secure in your hand or on your pack. The Seeker+ 3L packs down to pocket size in its own stuff sack with the filter stored inside so the filter is protected for safekeeping.

# PIONEER™

## WATER STORAGE + DELIVERY SYSTEM

Built for long days on the trail, the lightweight Pioneer is the ideal medium to large capacity water storage and delivery system for backcountry group adventures. Innovative two piece construction features a removable water storage reservoir and an abrasion resistant outer sleeve. The reservoir's wide opening is quick to fill and closes tight with a slide-seal top. Nylon drawstring cords make it easy to hang or carry and the new dispensing tap is ideal for filling bottles and washing cookware at camp. Lightweight and packable, it folds down small into its outer shell, an integrated storage pocket stores the included 28MM filter adapter when not in use.

6L | ●

### SPECS

Capacity	Weight	Dimensions	SKU
10 L / 335 fl oz	360 g / 12.7 oz	525 mm x 330 mm / 20.7 in x 13.0 in	AP002
6 L / 200 fl oz	310 g / 10.9 oz	490 mm x 250 mm / 19.3 in x 9.8 in	AP001
<b>Materials</b>			<b>Color</b>
TPU, ABS, POM, PP, EPDM, Silicone, 304SS, Nylon Fabric			● Chasm Black

### FEATURES

- 1. PACKABLE** - Water storage reservoir packs flat and folds down small into its outer shell. An integrated storage pocket is ideal for packing taps, filters or other accessories.
- 2. HANG OR CARRY** - Throw over your shoulder for easy transport or hang from a tree limb for convenient access around camp.
- 3. EASY TO FILL** - Removable reservoir opens wide for quick filling from spigots or streams. Slide-seal top closes tight for a leak-proof seal.
- 4. CAMP TAP** - Creates a versatile dispensing system at basecamp. Push to dispense water and release to auto-seal, locks open for faster filling or washing.
- 5. TWO PIECE CONSTRUCTION** - Features a removable water storage reservoir and an abrasion resistant outer sleeve.
- 6. FILTER COMPATIBLE** - Integrate the HydraPak 28MM PNP In-line filter for a gravity filtration system.
- 7. EASY TO CLEAN** - Reservoir can be removed for filling and turned out for cleaning and drying between trips. Outer hanging shell is made of Nylon Ripstop, can be rinsed off and hung to dry.

# EXPEDITION™

## WATER STORAGE

Live large. Hydrate often. Our high capacity 8L Expedition™ is the perfect water storage solution for car camping or water for your base camp, it has a wide-mouth Plug-N-Play cap for easy pouring, a flexible handle for effortless carrying and hanging and a free standing design with dual baffles for stability. And, as if all that wasn't enough, it's lightweight and extremely packable.

8L | ●

### SPECS

<b>Capacity</b>	<b>Weight</b>	<b>Dimensions</b>	<b>SKU</b>
8 L / 270 fl oz	257 g / 9.1 oz	380 mm x 200 mm / 14.8 in x 7.8 in	E800
<b>Materials</b>			<b>Color</b>
TPU, ABS, POM, PP, EPDM, Silicone, 304SS, Nylon Fabric, Hollow Fiber			● Chasm Black

### FEATURES

- EXTREMELY PACKABLE** - Embossed top and bottom add structure and durability, but still extremely packable - flatten, roll and wrap with tether when empty.
- COMPACT** - Dual baffles provide stability to the flexible walls so it is free-standing when full, collapses flat when empty.
- PLUG-N-PLAY** - Offers an easy connection point for Camp Tap and water filters.
- LASH POINTS** - Low profile daisy chain and an unbreakable webbing handle provide multiple options for hanging or attaching.
- CAMP TAP** - Creates a versatile dispensing system at basecamp. Push to dispense water and release to autoseal, locks open for faster filling or washing.
- ULTRA RUGGED** - Made of waterproof TPU film laminate for durability and versatility, can easily be wiped clean.
