How to Play wikiHow to Meme

Written by [The Team who brings you millions of meme-worthy images](#)

wikiHow to Meme is a goofy card game where you'll use your wits to match a How-To Title to one of our silliest wikiHow images. The goal of the game is to gain Image Cards by submitting the best How-To Title Card for each round. The first player to collect 5 image cards wins the game.

1

Setting Up the Game

- 1 Place a stack of Image Cards and How-To Title Cards in the center of the table in two separate piles.
- 2 Make one player the first judge. The judge will rotate every round in a clockwise direction.
- 3 The judge deals 7 How-To Title Cards face down to each player and themselves.
- 4 Players may look at their own cards, but should not reveal their cards to other players.

2

Playing the Game

- 1 The judge turns over an Image Card and places it face-up in the center of the playing area. Each player chooses the How-To Title Card from their hand that best matches the feeling, situation, or meaning of the Image Card. When chosen, players place their How-To Title Card face down in the center of the playing area. The judge does not submit a How-To Title Card during this round.
- 2 The judge shuffles the How-To Title Cards, turns them over, and reads them aloud. Players can try to persuade the judge to select their card. Anything goes! When ready, the judge picks their favorite title to match the image, and awards the Image Card to the player that submitted their favorite combination. The judge can choose on any basis they like.
- 3 At the end of a round, each player then draws a new How-to Title Card to ensure they always have 7 cards in their hand. The next judge then turns over a new Image Card to begin the next round. The first player to collect 5 Image Cards wins the game!
