
I'm Timebox-Evo, your personal pixel art assistant from Divoom.

I have a 16x16 pixel display and a DSP-tuned speaker. I also have many custom settings, as well as a new mobile application. Together, we will explore all the possibilities in the world of music and pixel art.

What's included?

- Timebox-Evo
- User manual
- USB-C charging cable

Thank you for purchasing a Divoom product!
Please read this manual carefully.
You can also visit www.divoom.com to learn more
about our other products!

Due to the nature of the technology product, the instructions on this manual are subject to change without prior notice. If you have any questions, please feel free to contact the Divoom customer support.

How to connect in Bluetooth

How connect with the speaker/mobile application?

Download mobile application

The Divoom application is available in both iOS and Android systems.

You can search for 'Divoom' or scan this QR code.

* Please note: iOS and Android connecting process is different

■ For Apple iOS system

1. In Settings, please turn on the Bluetooth.
2. Search and connect with the 'Timebox-evo-audio'.
3. In mobile application, search and connect with 'Timebox-evo-light'.

■ For Android system

1. Please turn on the Bluetooth in Settings.
2. Connect the 'Timebox-evo-light' and 'Timebox-evo-audio' in the mobile application.

How to record a voice memo (up to 60 seconds)?

1. Hold the play button to activate the voice memo function
2. Start to record your message
3. Press play button to end the recording, and press play button again to playback.

* Once played, the message will be erased.

How to setup a manual alarm?

1. Hold the center 'Auto power-off' and enter the manual alarm mode
 2. Press +/- to adjust time, press play button to confirm hour and switch to minute.
 3. Press play button to activate alarm, or press 'lighting' button to disable existing manual alarm and exit.
- * Timebox-evo support a single manual alarm (more alarm options available in mobile application)

How to setup the auto power off?

1. Press the 'Auto Power-off' button to activate Auto power off function.
 2. Keep pressing the same button to rotate the power off time interval.
 3. Release the 'Auto Power-off' at the desired time interval to confirm.
- * Select '00 min' to disable power off and exit auto power off mode.

How to charge?

- Insert the USB-C cable into the USB port on the rear panel.
- When Timebox-evo is ON or charging, presses the power button to check the battery status.
- With 100% battery level, Timebox-evo can provide up to 6 hours gameplay.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits

redesigned to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help
