SAFETY INFORMATION

Safety Precautions

Read through the following Safety Precautions before using the monitor.

• Only use the accessories that are provided with the monitor or that which are recommended by the manufacturer.
• Keep the plastic packaging bag for the product in a place that cannot be reached by children.
• Before connecting the monitor to the power outlet, make sure that the voltage rating of the power cable is compatible with the power specification in the country where you are located.
• The power cord plug must be connected to a properly wired and grounded power outlet.
• Do not touch the plug with wet hands, otherwise easily cause electric shock.
• Place the monitor in a stable and well-ventilated place.
• Do not place the monitor near any heat sources such as electric radiators or direct sunlight.
• The holes or openings on the monitor are for ventilation. Do not cover or block the ventilation holes with any objects.
• Do not use the monitor near water, drinks, or all types of liquids. Failure to do so may result in electric shock or damage to the monitor.
• Make sure to unplug the monitor from the power outlet before cleaning.
• As the screen surface is easy to be scratched, avoid touching the surface with any hard or sharp object.
• Use a soft lint-free cloth instead of a tissue to wipe the screen. You may use a glass cleaner to clean the monitor if required. However, never spray the cleaner directly onto the screen.
• Disconnect the power cable if the monitor is not being used for a long period of time.
• Do not attempt to disassemble or repair the monitor yourself.
Stability Hazard Precautions

The product may fall, causing serious personal injury or death. To prevent injury, this product must be securely attached to the floor/wall in accordance with the installation instructions.

Many injuries, particularly to children, can be avoided by taking simple precautions such as:

• ALWAYS use stands or installation methods recommended by the manufacturer of the product set.
• ALWAYS use furniture that can safely support the product.
• ALWAYS ensure the product is not overhanging the edge of the supporting furniture.
• ALWAYS educate children about the dangers of climbing on furniture to reach the product or its controls.
• ALWAYS route cords and cables connected to your product so they cannot be tripped over, pulled or grabbed.
• NEVER place a product in an unstable location.
• NEVER place the product on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the product to a suitable support.
• NEVER place the product on cloth or other materials that may be located between the product and supporting furniture.
• NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the product or furniture on which the product is placed.
• If the existing product is going to be retained and relocated, the same considerations as above should be applied.
• To prevent personal injury or damage to the product caused by tipping over due to earthquakes or other shocks, make sure to install the product in a stable location and take measures to prevent falling.

INTRODUCTION

Unpacking

1. Open the upper cover of the packaging box. Then observe the unpacking label attached on the inner cover.

2. Making sure the box is in the correct orientation, carefully lay the box on the stable surface.

3. Open the inner cover.

4. Grab the EPS foam assembly (through the openings) to pull it out of the box.
5. Remove the transparent wrapper securing the EPS foams. Then remove the items from the upper EPS foam.

6. Remove the upper EPS foam. Then you can remove the monitor from the lower EPS foam.
Package Contents

The following items come with your packaging box. If any of them is missing, please contact your local dealer.

- Monitor
- Monitor Base
- Power Cable
- HDMI Cable
- USB Cable
- DP Cable
- Multilingual Installation Guide
- Warranty Card
- Quick Start Guide
- Warranty Card

**Note:** Please keep the packaging box and packing materials for future transportation of the monitor.
Product Overview
Front view

1 Power LED
Rear view

1 Control button  2 KVM button  6 USB Type-C port
3 AC Power in  7 Headphone jack  8 USB upstream port
4 HDMI ports (x2)  8 USB 3.2 ports (x2)
5 DisplayPort

Note:
HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.
GETTING STARTED

Installing the Monitor Base

1. Place the monitor on the lower EPS foam, with the screen facing down.
2. Align the monitor base with the standoff underneath the stand. Then attach the base onto the stand.

3. Lift the screw ring and turn it clockwise to secure the monitor base in place.
4. Lift the monitor to an upright position and place it on a table.
5. Remove the small block of EPS foam located in between the rear of the screen and the stand. Then remove the safety plate from its slot.

**Note:** By removing the safety plate, you can now adjust the screen to the desired height.
Adjusting the Viewing Angle

**Note:** Hold the monitor base so that the screen does not topple when you make the adjustment.

Adjusting the Tilt Angle
Tilt the screen forward or backward to the desired viewing angle (-5° to 20°).

Adjusting the Screen Height
Lower or raise the screen to the desired height (0 to 130 mm).
Installing a Wall-Mount Bracket (Optional)

Use only a 100 x 100 mm VESA compatible wall mount kit.

1. Place the monitor on the lower EPS foam, with the screen facing down.

2. Push the release button upwards to disengage the stand from the monitor. Then remove the stand.

3. Attach the mounting bracket to the mounting holes at the rear of the monitor. Then use the screws to secure the bracket in place.

Note: To mount the monitor on the wall, refer to the installation guide that is included in the wall-mount bracket kit. VESA mounting screw size: M4 x 20mm minimum.
Making Connections

1 HDMI cable
2 DisplayPort cable
3 USB Type-C cable
4 Headphone cable
5 USB (A-Male to B-Male) cable
6 USB cable
USING THE DEVICE

Turning the Power On/Off

Power On

1. Connect the power cable to a power outlet.

2. Press the Control button to turn on the monitor. The Power LED will light in white, indicating the monitor is ready to use.

Note: If no signal, the monitor will show No Signal notification for a while. Then, the monitor will go to power saving mode and the Power LED lights white and starts blinking with a period of one second.

Power Off

Press the Control button for 2 seconds to turn off the monitor.

Note: When the Main menu appears on the screen, you can also turn off the monitor by moving the Control button down ( ). Refer to page 19.
User Comfort Recommendations

The following are some tips for comfortable viewing of your monitor:

- Optimal viewing distances for monitors range from approximately 510 mm to 760 mm (20” to 30”).
- A general guideline is to position the monitor such that the top of the screen is at or slightly below your eye-height when you are comfortably seated.
- Use adequate lighting for the type of work you are performing.
- Take regular and frequent breaks (at least for 10 minutes) every half-hour.
- Be sure to periodically look away from your monitor screen and focus on a far object for at least 20 seconds during the breaks.
- Eye exercise can help reduce eye strain. Repeat these exercises frequently: (1) look up and down (2) slowly roll your eye (3) move your eyes diagonally.

Selecting the Input Source

1. Move the Control button left (◀) to enter the Input menu.
2. Move the Control button up/down (▲) to select the desired input source. Then press the Control button to confirm.
OPERATIONS

Quick Menu

Hot Key

By default, the Control button has been assigned with the specific function.

**Note:** To change the preset hot key function, refer to the “Quick Switch” section on page 34.

To access the hot key function, do the following:

- Move the Control button up (↑) to enter the Black Equalizer menu.

Move the Control button up/down (↑/↓) to adjust Black Equalizer the setting and press the Control button to confirm.
• Move the **Control** button down ( ◀️ ) to enter the **Picture Mode** menu.

Move the **Control** button up/down ( ◀️ ) to select the desired option and press the **Control** button to confirm.

![Picture Mode Menu](image)

• Move the **Control** button right ( ◁️ ) to enter the **Volume** menu.

Move the **Control** button up/down ( ◀️ ) to adjust the headphone volume level and press the **Control** button to confirm.

![Volume Menu](image)

• Move the **Control** button left ( ◁️ ) to enter the **Input** menu.

Refer to the “Selecting the Input Source” section.

**Note:** To close the menu, move the **Control** button left ( ◁️ ).
Function Key Guide

Press the Control button to display the Main menu.

Then use the Control button to select the desired function and configure the related settings.

**KVM**

When the Main menu appears on the screen, move the Control button left (←) to enter the KVM menu.

- **KVM Switch**: Switch the input source that has been assigned to USB-B or Type-C connection in the KVM Wizard settings. When there are several input signals connected to the device, a message box will appear on the screen once the system detected USB Type-C input signal.
To switch to USB Type-C input source, simply press the KVM button or the Control button. However, when there is no input signal from currently selected input source, the system will return to the previous connected input source.

**Note:** This option will be disabled if the KVM button function is disabled (KVM OFF).

- **KVM Wizard:** Configure the KVM related settings. Set the input source to be bound with USB Type-B connection first, and then following with USB Type-C connection.

**Note:** If you set the USB-B Display setting to Type-C, the TYPE-C Display menu option will automatically be disabled. You will then see the KVM status in the KVM Wizard page as below.
- KVM ON/OFF: Enable/Disable the KVM button function.
  - Select **ON** to enable the KVM button function. Once the system detected USB Type-C input signal, a message box will appear on the screen.

  ![KVM Button](image)

  Press the KVM button or the Control button to switch to USB Type-C input source.

  **Note:** When the KVM button function is enabled, the KVM ON will be displayed on the left panel.

  - Select **OFF** to disable the KVM button function.
    **Note:** When the KVM button function is disabled, the KVM OFF will be displayed on the left panel.

- **KVM Reset:** Restore the KVM default settings.
  - HDMI 1 input source is bound with USB Type-B connection.
  - USB Type-C input source is bound with USB Type-C connection.
  - The KVM ON/OFF function is set to **ON**.
Game Assist

When the **Main** menu appears on the screen, move the **Control** button right ( ) to enter the **Game Assist** menu.

- **GAME INFO:** Configure the FPS (First Person Shooting) game related settings.
  
  ✓ Select **Gaming Timer** to select countdown timer mode. To disable this function, set the setting to **OFF**.

  ✓ Select **Gaming Counter** or **Refresh Rate** to enable/disable the gaming counter or real-time refresh rate setting.

  ✓ Select **Info Location** to specify the location of the information to be shown on the screen.
• **Crosshair:** Select the desired crosshair type to suit your gaming environment. It makes aiming much easier.
• **Dashboard**: Configure the dashboard settings.

- **ON**: Enable the function. Then select the desired option(s) to be shown on the screen.
- **OFF**: Disable the function.
- **Dashboard Location**: Specify the location of the Dashboard information to be shown on the screen. Once the Dashboard configuration is complete, it will transfer the system data to the SOC through the USB port and display the value of the selected function(s) on the screen.
Note: Make sure the USB cable is properly connected to the USB upstream port of the monitor and the USB port of your computer.

- Display Alignment: When the function is enabled, it displays the alignment lines on the four sides of the screen, providing handy tool for you to line up multiple monitors perfectly.
Configure the Device Settings

When the **Main** menu appears on the screen, move the **Control** button up (جموعة) to enter the **Settings** menu.

**Note:** Use the **Control** button to navigate through the menu and make adjustments.

Gaming

Configure the game related settings.

## Quick Switch

Assign the function of the hot keys.  
Available options: Aim Stabilizer sync, Black Equalizer, Low Blue Light, Volume, Input, Contrast, Brightness, and Picture Mode.  
The default setting of the hot keys as below:  
- **Up (↑):** Black Equalizer  
- **Down (↓):** Picture Mode  
- **Right (→):** Volume  
- **Left (←):** Input

## Other Settings

- **Resolution Notice:** When this function is enabled, the recommended resolution message will appear on the screen when the monitor switches to another input source.  
- **Input Auto Switch:** When this function is enabled, it automatically switches to an available input source.  
- **Auto Power OFF:** When this function is enabled, the monitor will automatically turn off after a certain amount of time.  
- **LED Indicator:** By default, the LED indicator is set to **Always ON.**  
  - **Always ON:** The Power LED lights white during operation.  
  - **Always OFF:** Turn off the Power LED.  
  - **Standby ON:** The Power LED lights white in standby mode.  
  - When the power supply is switched off, the Power LED will remain off.  
- **Type-C Compatibility:** Turn this option on to improve mobile devices compatibility.  
- **HDMI-CEC:** When enable this function, CEC device like PS5, XBOX could turn on the monitor when they are waken up and switch off the display when they enter either Standby or off mode.  
- **USB (A/C) Charge:** Enable or disable the USB Type-A charging and USB Type-C charging (5V/3A, 9V/3A, 12V/3A, 15V/3A) function in standby mode.
Language
Select an available language for the OSD menu.

| No power                             | • Make sure the power cable is properly connected to the power source and the monitor.  
                                           • Check the cable and plug to make sure they are not broken.  
                                           • Make sure the monitor is turned on.                                                                                                               |
| No image appears on the screen       | • Make sure the monitor and the computer are properly connected and both devices are turned on.  
                                           • Make sure you have selected the correct input source. Refer to page 16 or 30.  
                                           • Adjust the Brightness and Contrast settings. Refer to page 28.                                                                                     |
| The image does not fill the entire screen | • Try different Display Mode (aspect ratio) setting. Refer to page 27.                                                                                   |
| The colors are distorted              | • Make sure the input signal cable is properly connected.  
                                           • Configure the image related settings. Refer to the “Picture” section.                                                                               |
| No sound or volume is low            | • Make sure the headphone cable is properly connected.  
                                           • Adjust the volume level. Refer to page 18 or 32.  
                                           • Adjust your computer sound related settings.                                                                                                      |

*Note:* If the problem persists, please contact our customer service for further assistance.
**Basic Care**

When the screen becomes dirty, do the following to clean the screen:

- Wipe the screen with your soft, lint-free cloth to remove any residual dust.
- Spray or apply the cleaning fluid onto a soft cloth. Then wipe the screen gently with the damp cloth.

**Note:**

- Make sure that the cloth is damp, but not wet.
- When wiping, avoid applying excessive pressure on the screen.
- Acidic or abrasive cleaners can damage the screen.

**Notes on USB Charging**

The following devices are not compatible with BC 1.2 of CDP mode. When the Hub is connected to a PC, these devices cannot be charged using the USB cable.

**GIGABYTE Service Information**

More service information, please visit GIGABYTE official website: https://www.gigabyte.com/
General Description

M27Q P is a color active matrix liquid crystal display with a Light Emitting Diode (LED) backlight assembly without LED driver. The matrix employs a-Si thin film transistor as the active element. It is a transmissive type display operating in the normally black mode. It has a 27 inch diagonally measured active display area with QHD resolution (2560 horizontal by 1440 vertical pixel array). Each pixel is divided into red, green and blue sub-pixels or dots which are arranged in vertical stripes. Gray scale or the brightness of the sub-pixel color is determined with a 8-bit gray scale signal for each dot, thus, presenting a palette of more than 16.78 Million colors. It has been designed to apply eDP (HBR2, 5.4Gbps) interface. It is intended to support displays where high brightness, super wide viewing angle, high color saturation, and high color are important.

FCC Compliance Statement:
This device complies with Part 15 of the FCC Rules, Subpart B, Unintentional Radiators.
Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with manufacturer’s instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
• Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Canadian Department of Communications Statement
This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications. This class B digital apparatus complies with Canadian ICES-003.

Avis de conformité à la réglementation d’Industrie Canada
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

European Union (EU) CE Declaration of Conformity
This product has been tested and found to comply with all essential requirements of the Directives.

GIGABYTE products have not intended to add and safe from hazardous substances (Cd, Pb, Hg, Cr+6, PBDE, PBB, DEHP, BBP, DBP and DIBP). The parts and components have been carefully selected to meet RoHS requirement. Moreover, we at GIGABYTE are continuing our efforts to develop products that do not use internationally banned toxic chemicals.

GIGABYTE will fulfill the national laws as interpreted from the 2012/19/ EU WEEE (Waste Electrical and Electronic Equipment) (recast) directive. The WEEE Directive specifies the treatment, collection, recycling and disposal of electric and electronic devices and their components. Under the Directive, used equipment must be marked, collected separately, and disposed of properly.
WEEE Symbol Statement

The symbol shown below is on the product or on its packaging, which indicates that this product must not be disposed of with other waste. Instead, the device should be taken to the waste collection centers for activation of the treatment, collection, recycling and disposal procedure.

For more information about where you can drop off your waste equipment for recycling, please contact your local government office, your household waste disposal service or where you purchased the product for details of environmentally safe recycling.

End of Life Directives-Recycling

The symbol shown below is on the product or on its packaging, which indicates that this product must not be disposed of with other waste. Instead, the device should be taken to the waste collection centers for activation of the treatment, collection, recycling and disposal procedure.

Déclaration de Conformité aux Directives de l’Union européenne (UE)

La conformité à ces directives est évaluée sur la base des normes européennes harmonisées applicables.

European Union (EU) CE-Konformitätserklärung

Die Konformität mit diesen Richtlinien wird unter Verwendung der entsprechenden Standards zur Europäischen Normierung beurteilt.
Ce déclaration de conformité

La conformité avec ces directives est vérifiée en utilisant les normes européennes harmonisées.

---

Declaración de conformidad

El cumplimiento de estas directivas se evalúa mediante las normas europeas armonizadas.

---

Dichiarazione di conformità

I prodotti con il marchio CE sono conformi con una o più delle seguenti Direttive UE, come applicabile: Direttiva EMC 2014/30/UE, Direttiva della bassa tensione 2014/35/UE, Direttiva Ecodesign EMC 2009/125/EC, Direttiva RoHS 2011/65/UE e Dichiarazione 2015/863.

La conformità con tali directive viene valutata utilizzando gli Standard europei armonizzati applicabili.

---

Deklaracja zgodności UE Unii Europejskiej

Niniejsze urządzenie zostało poddane testom i stwierdzono jego zgodność z wymaganiami dyrektywy.

備考1.“超出0.1 wt%”及“超出0.01 wt%”係指限用物質之百分比含量超出百分比含量基準值。

Note 1: "Exceeding 0.1 wt%" and "exceeding 0.01 wt%" indicate that the percentage content of the restricted substance exceeds the reference percentage value of presence condition.

備考2."O"係指該項限用物質之百分比含量未超出百分比含量基準值。

Note 2: "O" indicates that the percentage content of the restricted substance does not exceed the percentage of reference value of presence.

備考3."—"係指該項限用物質為排除項目。

Note 3:The"—" indicates that the restricted substance corresponds to the exemption.
