The lightning flash with arrowhead within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.	**CAUTION** **RISK OF ELECTRIC SHOCK DO NOT OPEN** CAUTION: TO PREVENT RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.	The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

CAUTION: To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.
WARNING: To prevent electric shock, do not use this (polarized) plug with an extension cord, receptacle or other outlet unless the blades can be fully inserted to prevent blade exposure.

WARNING: Invisible laser radiation when open and interlock failed or defeated. Avoid direct exposure to laser beam.
PRODUCT COMPLIES WITH DHHS RULE 21 CFR SUBCHAPTER J IN EFFECT AT DATE OF MANUFACTURE

This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

Important Safety Instructions

1. Read these instructions – All the safety and operating instructions should be read before this product is operated.
2. Keep these instructions– The safety and operating instructions should be retained for future reference.
3. Heed all warnings – All warnings on the appliance and in the operating instructions should be adhered to.
4. Follow all instructions – All operating and use instructions should be followed.
5. Do not use this apparatus near water – The appliance should not be used near water or moisture – for example, in a wet basement or near a swimming pool, and the like.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiations, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at the plugs, convenience receptacles, and at the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13. Unplug the apparatus during lighting storms or when unused for long periods of time.
14. Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

15.

-This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.
-Warning: To reduce the risk of electric shock, do not remove cover (or back) as there are no user-serviceable parts inside. Refer servicing to qualified personnel.
-The exclamation point within and equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the appliance.

16.

This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

17. The mains plug is used as disconnect device, the disconnect device shall remain readily operable.

18. WARNING
To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall not be placed on apparatus.

19. The use of the equipment in moderate climate.

20. The ventilation should not be impeded by covering the ventilation openings with items such as, newspapers, tablecloths, curtains, etc.

21. No naked flame sources, such as lighted candles, should be placed on the apparatus.

22. The symbol with ~ Indication AC voltage.

23. The symbol with " ⎓ " indication DC voltage.

24. Attention should be drawn to the environmental aspects of battery disposal.

25. The batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

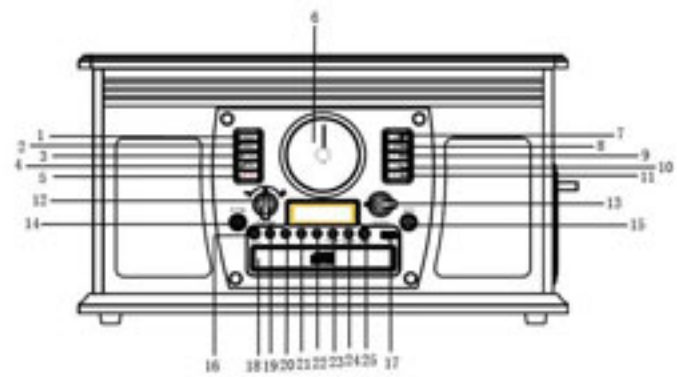

26. CAUTION: These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

2. Select the source by pressing the corresponding mode button. (AUX/ ᛒ(Bluetooth) / PHONO / CD/USB / TAPE / AM/FM)

3. Rotate the VOLUME knob to adjust to the desired sound level. Volume ranges from "00-30". "30" is max volume.

Listening through Earphones/Headphones (*not included*)

For private listening, first reduce the volume level to minimum. Insert your headphones' plug into the HEADPHONE jack, then adjust the volume up by turning the VOLUME knob.

Note: *The speakers will automatically be deactivated while headphones are plugged in.*

CONDENSATION WARNING:

When the unit is moved from a cold or warm place, or is used following a sudden temperature change, there is the danger that water vapor in the air may condense on the unit, preventing proper operation. In such cases, leave the unit for 1-2 hours after plugging it into an AC outlet to allow it to stabilize at the temperature of its surroundings.

Remote Control

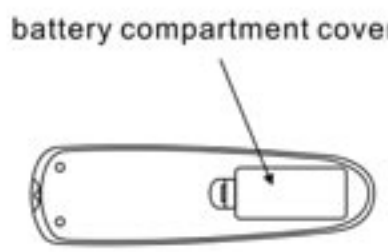

When using the remote control, point it towards the remote sensor on the front panel of the unit.

Notes:

- *Even if the remote control is operated within the effective range, remote control operation may be impossible if there are any obstacles between the unit and the remote control.*
- *If the remote control unit is operated near other devices that generate infrared rays, it may not function properly. Conversely, the other devices also may not function correctly.*

Battery Installation

1. Remove the battery compartment cover.
2. Insert 2x "AAA" batteries. (batteries not included)
   Note: Make sure that they are oriented so their polarity markings, "+" and "-" match the remote's markings.
3. Replace the battery compartment cover.

Battery Replacement

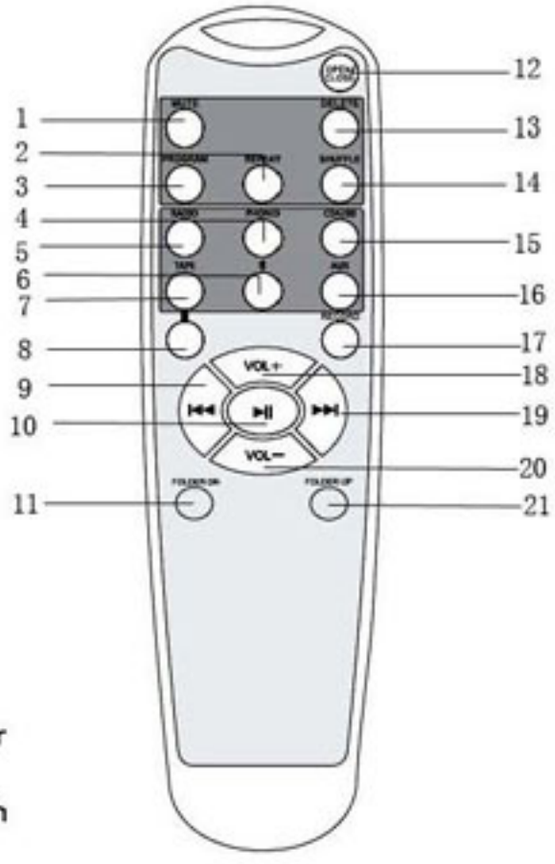

When the distance required between the remote control unit and main unit decreases, it is necessary to replace the battery with new ones.

Battery Precautions

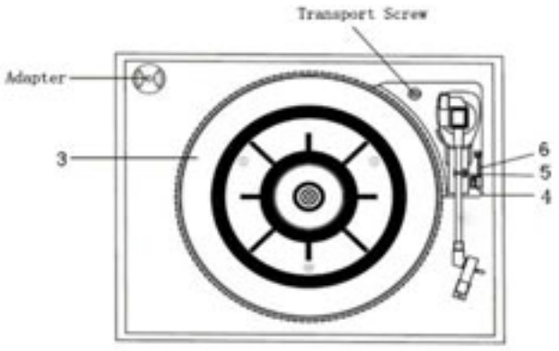

Be sure to insert the batteries with correct positive "+" and negative "-" orientation.
ALWAYS use batteries of the same type. Never mix different types of batteries together.
When using rechargeable batteries, refer to the precautions on their labels.
When the remote control unit is not to be used for a long time (more than a month), remove the batteries to prevent them from leaking.
Do not heat or disassemble batteries, and NEVER dispose of old batteries by throwing them in a fire.
Do not dispose device into standard garbage disposal sites. Dispose of device at available Battery Recycling Sites after fully discharging battery. Not doing so may violate disposal laws and regulations. Please refer to local regulations for proper battery disposal.

Listening to an External Audio Device (AUX Mode)

In AUX (auxiliary) mode, this unit can play audio from an external audio source (iPod, MP3 Player, Portable CD Player, etc.)

There are two AUX-IN's (front and rear). When connecting a device that has a headphone jack, use a cable with 3.5mm plugs on either end (not included) with the front AUX-IN jack.
The rear set of AUX-IN jacks (red and white) can be used with devices that use RCA connections (DVD players, etc.).

1. Plug one end of the AUX-IN cable (included) into the AUX-IN (on the front or back of the unit).
2. Plug the other end of the cable into the headphone jack (or RCA jacks) of the external audio source.
3. Press "AUX/Bluetooth" button to select AUX-IN function, "AUX" will appear on the top right corner.
4. Turn your external device on to playback.
5. Rotate the VOLUME knob to adjust the sound level.
6. Adjust the volume level on your external audio device if necessary.
7. You can control the playing process by operating your external device.

NOTE: *All operations are only available on your external device.*

Important: *If both the front and rear AUX-IN's are connected to AUX-IN cables at the same time, only the front one will be active.*

AUX OPERATION
Please use this function to record from other sources such as Karaoke and radio.
Please use the included AUX cable and connect one end to the AUX jack on the back. Connect the other side end to a portable boom box or any other stereo, CD player, MP3 players, Karaoke, etc, to its headphone jack. Keep function as AUX and follow the recording instructions.

Listening to an External Audio Device (Bluetooth Mode)

In BT (Bluetooth) mode, this unit can enjoy music from external devices which have a built-in Bluetooth feature.

GETTING CONNECTED USING BLUETOOTH
1. Press "AUX/Bluetooth" button twice to select Bluetooth mode and then the display will show " ᛒ ".
2. Set the Bluetooth function of your external device when the apparatus is on.
3. Set to search Bluetooth device on your external device.

NOTE: *The effective distance between your external device and this apparatus is 10 meters (33 ft).*

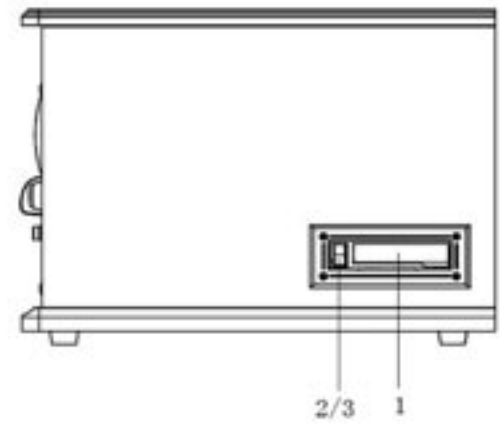

4. Press "**Wooden Music Center**" when it appears on the paired devices list on your external device. If a password is required, fill in "0000" then press "OK" on your external device.
5. If the Bluetooth connection is successful, it will be indicated by a series of tones.

ENJOY MUSIC FROM AN EXTERNAL DEVICE
1. Pair your external device. (See "Getting connected")
2. Turn on the music player program on your external device and set it to play.

Normally, you can control music playback with the PLAY/PAUSE or (⏮) and (⏭) buttons on the apparatus. However, some buttons may not work due to the variable music player program.

- Remote Control can be used for all steps/functions listed above.

Maintenance / Proper Handling

Compact Disc Handling

- Always place the disc on the disc tray with the label side facing upward (compact discs can be played/recorded only on one side)
- To remove a disc from its storage case, press down on the center of the case and lift the disc upward, holding it carefully by its edges.
- To clean a disc, wipe the surface from the center hole outward towards the outer edge with a soft, dry cloth.
- Never use such chemicals as record spray, antistatic sprays or fluid, benzene or thinner to clean discs; they will irreparably damage the disc's plastic surface.
- Discs should be returned to their cases after use to protect from dust and scratches.
- Do not expose discs to direct sunlight, high humidity, or high temperature for an extended period of time.
- Printable CD-R and CD-RW discs are not recommended, as the label side may become sticky and damage the unit.
- Use a soft oil-based felt-tipped pen to write the information on the label side. Never use a ball-point or hard-tipped pen, as doing so may damage the recorded side.
- Do not use irregularly-shaped CDs (octagonal, heart shaped, business card size, etc), as they will damage the unit.
- Read all precautions supplied with any CD-R or CD-RW disc.
- Never handle a disc with dirty fingers.
- Never insert a disc that has a crack on the surface.

Handling Vinyl Records

- Do not touch the record's grooves. Only handle records by the edges or the label with clean hands. Touching the record surface will cause your record's quality to deteriorate.
- To clean a record, use a soft anti-static cloth to gently wipe the record surface.
- Keep records in their protective sleeves when not in use.
- Always store records upright on their edges
- Avoid placing records in direct sunlight, close to a heat source (radiators, stoves, etc.), or in a location subject to vibration, excessive dust, heat, cold or moisture.

General Care

- When removing the power plug from the wall outlet, always pull directly on the plug. Never pull the cord.
- To keep the laser pickup clean, do not touch it, and do not forget to close the disc tray.
- Do not attempt to clean the unit with chemical solvents as this might damage the finish.
- For cleaning, only use a clean, dry cloth.
- In order to shut off the power to this product completely, unplug the power cord from the wall outlet. Be sure to unplug the unit if you will not intend to use it for an extended period of time.

How to Replace the Turntable Stylus

The stylus should last about 50 hours under normal use. However, it is recommended that the stylus be replaced as soon as you notice a change in sound quality. Prolonged use of a worn-out stylus may damage the record. The highest speed of 78 RPM records would wear out the stylus more quickly.

Removing the old stylus:

1. Set a screwdriver at the tip of the stylus and push downward (A).
2. Remove the stylus by pulling it simultaneously downward and forward.

Installing a new stylus:

1. Hold the front tip of the stylus and insert its rear edge (B) first.
2. Push the stylus upwards (C) until the tip locks into place.

***Caution*:**

- *Do not remove or bend the stylus.*
- *Do not touch the needle to avoid injury your hand.*
- *Turn off the unit's power before you replace the stylus.*
- *Keep out of reach of children*
