Wireless Connection

For 9.7 inch Keyboard

1. Turn the keyboard on, the on/off button is on the right side of the gusset. Then press "fn" and "C", wireless indicator becomes flashing blue that means the keyboard is into pairing mode for 3 min.

2. Turn on Bluetooth function on your iPad via select "Settings/General/Bluetooth On"
3. Open the Bluetooth on your iPad, you will find "ipad. keyboard" on Bluetooth list, and click it, then there will be a notice "Bluetooth Pairing Request "ipad. Keyboard" . would like to pair with your iPad", you can click "Pair".
4. "Connected" means iPad and wireless keyboard connect successfully.

For 10.2/10.5 inch Keyboard

1. Power on keyboard, then keep pressing  for 2 sec, wireless indicator becomes flashing blue that means the keyboard will be into pairing mode for 3 min.

2. Turn on Bluetooth function on your iPad via select "Settings/General/Bluetooth On"
3. Open the Bluetooth on your iPad, you will find "iPad Keyboard." on Bluetooth list.
4. Choose "iPad Keyboard.", wireless signal light goes out which means connection is successful.

Tips: Bluetooth will automatically be connected when using next time.

Questions about Charging

1. Open the keyboard, when the battery indicator is flashing orange, please charge the keyboard in time.
2. Insert the charging cable at the keyboard and usb port on the computer or power adapter, indicator becomes steady red light which shows the keyboard is charging.
3. The battery indicator of 9.7 inch keyboard will turn off once it's fully charged.
The battery indicator of 10.2/10.5 inch keyboard will turn green once it's fully charged.
(IMPOTANT)
4. The charging cable for 9.7 inch keyboard is micro usb cable, the charging cable for 10.2/10.5 inch is type C cable.

NOTICE: If you don't use it normally, please charge the keyboard regularly, once a month is advised by NOKBABO.

1. Keyboard can't connect to your iPad when you first get it.

Charge keyboard case first until it's fully charged.

Please click "forget this device" to delete all the devices on your iPad Bluetooth list, then restart your iPad and keyboard. Connect them again.

If the problem is still alive, please kindly contact seller.

2. Some characters can't work.

Turn the keyboard off first and turn on it again.

And you need to check below settings:

Settings/Accessibility/Touch/AssistiveTouch/AssistiveTouch Off

If the problem is still alive, please kindly contact seller.

3. Why I press A but get a Z.

Go to Settings/Keyboard/Keyboards/English(US)/QWERTY

4. Space bar problem-Space bar doesn't work or Insert period.

Settings/Accessibility/Keyboards/Full Keyboard Access/Commands/(INTERACTION)

Activate "Clear"

". " Shortcut is on in default status that double tapping the space bar will insert a period followed by a space, you can turn it off as below settings:

General/Keyboard/Hardware Keyboard/"." Shortcut off

5. Keyboard can't hold a charge.

Please change another charging cable to test. If is still not workable, maybe there is problem with battery, please kindly contact after-sale team nokbabo@hotmail.com with your order ID for a new replacement. May it help to you.

6. If there is delay after you press keys, please kindly check one of iPad Settings as below:

Settings/Accessibility/Keyboards/Slow Keys Off

Settings/Accessibility/Keyboards/Slow Keys On 0.1 Seconds

7.If there is repeated characters after you press certain key, pleas kindly check one of iPad Settings as below:

Settings/Accessibility/Keyboards/Key Repeat On 0.1 Seconds

Settings/Accessibility/Keyboards/Key Repeat Off

8.Can't find charging cable in package, you can see below picture. If there is no charging cable in white box, just contact seller on Amazon or our after-sale email nokbabo@hotmail.com.

9.Don't know how to remove the case.

Please check the instruction video:<https://youtu.be/DUff3FeOFTk>
