	**DANGER** This symbol indicates that there are dangers to the life and health of persons due to extremely flammable gas.
	**WARNING OF ELECTRICAL VOLTAGE** This symbol indicates that there is a danger to life and health of persons due to voltage.
	**WARNING** The signal word indicates a hazard with a medium level of risk which, if not avoided, may result in death or serious injury.
	**CAUTION** The signal word indicates a hazard with a low degree of risk which, if not avoided, may result in minor or moderate injury.
	**ATTENTION** The signal word indicates important information (e.g. damage to property), but not danger.

WARNING

Risk of fire/Flammable materials

- **DANGER** Risk of fire or explosion.Flammable refrigerant used. Do not use mechanical devices to defrost refrigerator.Do not puncture refrigerant tubing.
- **DANGER** Risk of fire or explosion.Flammable refrigerant used. To be repaired only by trained service personnel. Use only manufacturer authorized service parts. Any repair equipment used must be designed for flammable refrigerants. Follow all manufacturer repair instructions. Do not puncture refrigerant tubing.

WARNING General safety

- Install in accordance with the manufacturer's instructions. The unit is for indoor house-hold use only.
- This product should not be recessed or built-in an enclosed cabinet. It is designed for freestanding installation only. Ensure a minimum of three inches of clearance around the side and back walls of the unit for proper air circulation.
- Keep ventilation openings, in the product, clear of obstruction.
- Do not install or operate the machine in a sealed space, such as a closed room.
- Use the machine in a well-ventilated area with a temperature, between 50°F and 90°F.
- Do not install near any heat sources, such as radiators, heat registers, stoves, other cooking appliances or in direct sunlight.
- Do not store or use gasoline or any flammable liquids inside or in the vicinity of this appliance.
- Do not clean the ice machine with flammable liquid. Failure to do so may result in fire or explosion.
- Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- Do not damage the refrigerant circuit.
- Do not use if the service life is exceeded.
- Only dispose of the unit according to Federal and Local Regulations. Used device must be returned to official collection point for recycling of electrical electronic devices. To find these collection systems please contact to your local authorities or retailer where the product was purchased.

WARNING Electrical safety

- Voltage power from outlet must match specifications on appliance nameplate.
- This appliance must be grounded.
- Do not squeeze or twist the power cord of the ice machine.
- If the power cord is damaged, it must be replaced by a manufacturer, service agent or similar qualified person to avoid danger.
- Using an extension cord may cause overheating and increase the risk of fire.
- If an extension cord MUST be used:
  Only use an extension cord with grounding plug.
  The marked rating of an extension cord or greater than the rating of this appliance.

- Do not operate if any component, including the cord or plug is damaged.
- Unplug the unit before cleaning by hand.
- Do not touch the evaporator with your hands while the ice maker is operating.
- Do not plug in or unplug the unit with wet hands.
- Do not immerse any part of the unit in water.

WARNING Child safety

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not place the power cord where it could be pulled by children or pose a tripping hazard.
- Children should not be left unattended near the ice maker during operation.
- Children should be supervised to ensure that they do not play with the appliance.
- Destroy carton, plastic bags, and any exterior wrapping material immediately after the product is unpacked.

WARNING

State of California Proposition 65 Warnings:

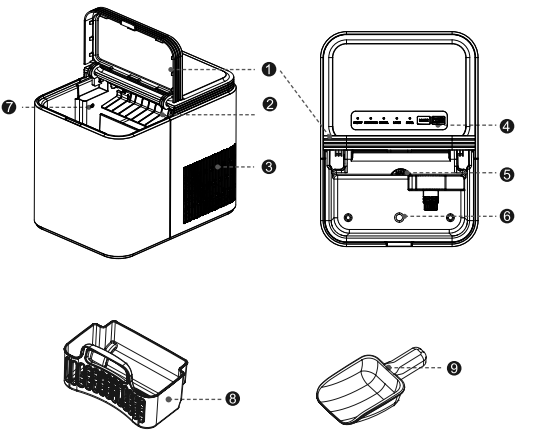

- This product can expose you to chemicals including lead, which is known to the State of California to cause cancer, and bisphenol A (BPA) and lead which are known to the state of California to cause birth defects or other reproductive harm. For more information go to **www.P65Warnings.ca.gov.**

SPECIFICATIONS

Product model	MERI26B1AGY/MERI26B1AGN
Voltage/Frequency	115V~/60Hz
Working Power	140W
Electric Current	1.6A
Water Reservoir	0.34 gal(1.3L)
Ice Basket Capacity	1 lbs(0.45kg)
Ice-Making Rate	26 lbs per Day
Ice Shape	Bullet
Ice Size	Small or Large
Material	GPPS, ABS, PP, HIPS
Net Weight	14.6 lbs(6.6kg)
Unit Size	11.6 x 8.4 x 11.6 inch (295.7 x 213 x 295mm)

PRODUCT OVERVIEW

Names of components

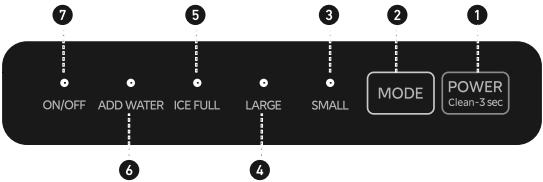

1	Large Viewing Window	**2**	Ice Shovel
3	Air Exhaust Fan	**4**	Control Panel
5	Maximum Water Fill Line	**6**	Drain Plug
7	Ice Full Sensor	**8**	Ice Basket
9	Ice Scoop		

ATTENTION

- The picture above is only for reference. The actual configuration will depend on the physical product or statement by the distributor

OPERATION INSTRUCTIONS

Control panel operation

	Key (with indicator)	FunctioN
1	POWER Clean-3 sec	Short press the **POWER/Clean-3 sec** button to turn the ice maker on.
		Short press the **POWER/Clean-3 sec** button to turn the ice maker off.

- When the unit is not to be used for a long duration, drain the water completely & dry the interior.
- Store in a well-ventilated area.

TROUBLESHOOTING

The following simple issues can be handled by the user. Please call the after-sale service department if the issues are not solved.

Problem	Possible Causes	Solution
Poor ice shape or quality.	Poor heat dissipation.	Leave a 3-inch clearance on all sides of the ice maker for ventilation.
	The water temperature is too high.	Fill with water temperature between 46°F and 77°F.
	The water temperature is too high.	Use the ice maker in room temperatures between 50°F and 90°F.
	Evaporator deformation.	Please contact customer service.
Ice maker creating loud noise.	Ice maker has not been cleaned for a long time, which will form a sticky substance around the inlet of the water pump.	Clean every 1 to 2 weeks, using some neutral cleaning agents (such as mild vinegar solution and soapy water).
	Lack of water to pump will create noise when pumping water.	Add more water.
	Fan or ice maker is damaged.	Please contact customer service.
	Water pump is damaged.	
"ICE FULL" indicator light is on.	Ice is blocking the infrared sensor.	Empty the ice basket. (After the full ice warning is cleared, the compressor will restart and ice making will resume within 2 minutes.)
	Infrared sensors do not work.	1. Wipe the infrared sensors clean. 2. Contact customer service if the infrared sensors still don't work.
Ice sticks together.	Making ice takes too long.	Stop making ice. After the ice melts, restart and try again. Check the ice-making mode is set to "large ice" mode, switch to "small ice" mode."
	The water temperature or ambient temperature is too low.	Fill with water temperatures between 46°F and 77°F.
	Evaporator deformation.	Please contact customer service.

Problem	Possible Causes	Solution
Not making ice.	Ambient or water temperature is too high.	Please contact customer service.
	Water pump is damaged.	
	Refrigerating system leaking.	
	Refrigerating system blocked.	
	The fan stopped working.	
	The wires are loose.	
	The gears in the motor are broken.	
"ADD WATER" indicator light is on.	Water tank water level is too low, cannot start ice making.	Add water, press the POWER button to restart the machine, and once the water shortage prompt is resolved, the ice-making will begin.
