How to Clean

Handle Part

Gently wipe handle part of the scrubber with a wrung soft cloth.

Brush Head

Disassemble the brush head and immerse it into water to clean. Clean it with neutral detergent if it is difficult to clean.

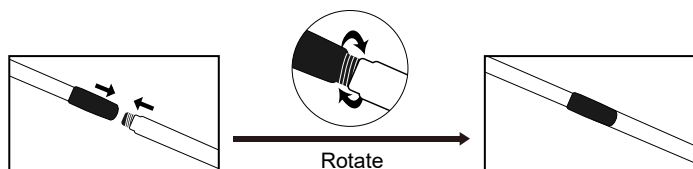

Cleaning tips

- For better cleaning effect, it is recommended to use the brush with detergent (such as Mold&Mildew Remover, Water Strain Remover, Oven Cleaner, Bleach Cleaner and All Purpose Cleaner) You can use different detergents and brushes for different needs.
- For better removing stubborn hard stains, apply your cleaning detergent of choice to the surface and let it soak for 10 minutes before you start cleaning with the scrubber. You will be amazed with the results!

ASSEMBLY TIPS

Assembly with Extension Handle

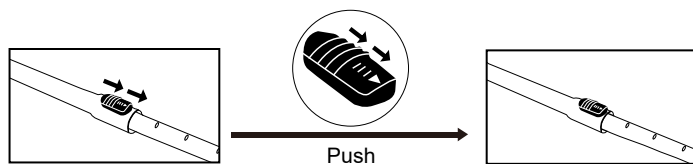

Use the main handle through clockwise rotation to connect the extension handle

Take out the tail cover of spin scrubber and Insert the front end of extension handle vertically into the end of the appliance

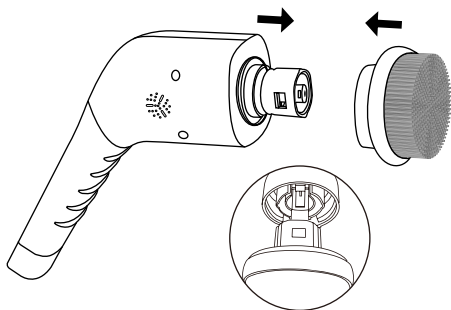

The extension handle can be adjusted freely by pushing the adjustment switch to achieve 7 kind of lengths.

▲ NOTE: Please make sure the charging hole protection cover is installed before use if you only use this appliance without extension handle.

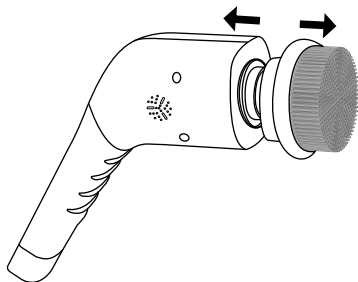

Assembly with Brush Head

- Firmly hold the scrubber with one hand and press the selected brush until secured.
- Align the semicircular groove of the brush head with the convex groove of the brush head connector and mount it vertically.
- For sponge brush, absorbent cloth, scouring pad and copy wool brush, you should stick these four brushes to the brush holder to use them.

Disassembly with Brush Head

- Hold the connection part of the brush head and pull it out vertically
- Gently swing the brush head while pulling, it will be easier to disassembly.

▲ NOTE: When replacing the brush head, the product should be turned off.

Suggestions for Use of Brush Head

Large flat brush

Large flat brush is used to clean large flat surface area, like hard floor, tile wall, bathtub, pool, stove, carpet, ceramic and automobile hub.

Small flat brush

Small flat brush is suitable for stove, sink and clean the small area of moderate dirt of outdoor supplies.

Corner brush

Corner brush is good at cleaning tile, corners, cranny and automobile hub.

Chenille cloth

Chenille cloth is perfect as a smooth surface cleaning brush for glass and wood floor.

Sponge brush

Sponge brush is suitable for deep cleaning of bright or easily damaged surface and removal of subtle stains, oil stains and water stains, such as kitchenware and car surface.

Absorbent cloth

After using the brush head, use absorbent cloth to wipe the surface water stains and finish the surface polishing.

Scouring pad

Scouring pad applies to surfaces with heavy oil pollution that are not afraid of scratching, which need to be used with no corrosive cleaner, such as gas cooker, kitchen ventilator, kitchenware and other kitchen utensils.

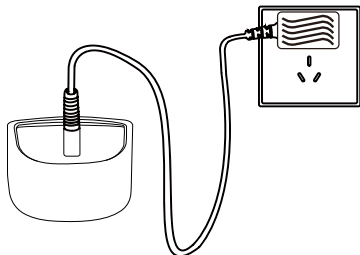

Copy wool brush

Copy wool brush head is suitable for paint, leather and other easily damaged surface cleaning and polishing, such as car surface, sofa, furniture and other precious goods surface.

▲ NOTE:

- 1.First check to ensure that there is no water on the surface of the machine.
- 2.During the charging time, please ensure that the machine is in a reliable and fixed position and cannot be suspended.
- 3.After charging, please remember to install the tail cover on the appliance if you didn't use extension handle.

FAQ

Why does the electric spin scrubber stop working?

Please check whether the product triggers the safety lock, if so, long press the power button for 3 sec to unlock it.

If you press too hard or overload the product during use, the product will enter the protected state within two seconds and automatically stop working. Press the M key to enter the working mode again.

If neither of the above two situations, please contact our customer service via email: jorkingcustomerservice@outlook.com

How to buy brush heads for replacement?

Please contact our customer service via Amazon,
Our customer service will tell you how to buy it.

Can this appliance be immersed in water to work? Like, could I use it to clean a swimming pool?

Although our product has reached IPX5 waterproof, we still do not recommend you to soak in water to use it in order to prolong the service life of the product. When you want to clean a swimming pool or something like that, you can drain the water and then clean it with our product.

How to achieve maximum cleaning results with scrubber?

For stubborn hard stains, apply your cleaning detergent of choice to the surface and let it soak for 10 minutes before you start cleaning with the scrubber. You will be amazed with the results!

Does this product come with a charger?

We provide a charging line, but the adapter is not included in our package.

The ordinary adapter is suitable for this product. (Input - AC 100-240V, Output - DC 5V / 1A)
