1. Important Safety Instructions

WARNING

Failure to follow these warnings and the instructions could result in death or serious injury.

SUFFOCATION AND STRANGULATION HAZARD

- Gaps in and around bed rails have entrapped young children and killed infants.
- **NEVER** use with children younger than 2 years old.
- Use **ONLY** with younger children who can get in and out of adult bed without help.
- **NEVER** use in place of crib.
- **NEVER** use unless bed rail is tight against mattress, without gaps and at least 23 cm from headboard and footboard. Do not fill gaps with pillows, blankets, or other items that can suffocate children.
- **NEVER** use on toddler bed, bunk bed, water bed, or bed with inflatable mattress. Use **ONLY** on adult bed.
- Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a product or attach strings to toys.

WARNING - ENTRAPMENT HAZARD:

- **NEVER** use bedrail without properly securing bed rail to bed. Incorrect installation can allow bedrail to move away from mattress, which can lead to entrapment and death.

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

When using the product, basic safety precautions should always be followed to reduce the risk of injury including the following:

- Do not use this product with any accessories that have not been approved by the manufacturer.
- Make sure there are no objects on the mattress that can act as a step supporter.
- The product can be used for children between 6 months to 3 years old. However, it is suggested to use for children above 2 years old.
- This product must be assembled by an adult.
- Keep children and pets away while assembling the product.
- Do not let children climb on or play with the product.
- Discontinue use if damaged, broken, or if parts are missing.
- Do not over-tighten the fasteners.
- Regularly examine the product for wear and tear. Stop using the product at first sign of damage or if parts become detached.
- Do not hang anything on the product.

2. Intended Use

- This product is intended to prevent children between 2 to 3 years old from falling off a bed. The product can be also be used for children between 6 months to 3 years old.
- The product is intended to be used between wooden or metal bed frames and mattresses with box springs. It can be drilled into a wooden bed frame or slid between the bed frame and mattress.

3. Before First Use

DANGER Risk of suffocation!

Keep any packaging materials away from children and pets – these materials are a potential source of danger, e.g. suffocation.

- Remove all the packing materials.
- Remove and review all components before assembly.
- Check the product for transport damages.
- Clean the product before use.

4. Assembly

For additional illustrated assembly steps, refer to the end of the written instructions.

5. Cleaning and Maintenance

5.1 Cleaning

- The net is hand-wash only.
- To clean the product, wipe with a soft, slightly damp cloth.
- Never use corrosive detergents, wire brushes, abrasive scourers, metal or sharp utensils to clean the product.

5.2 Maintenance

- Check the components regularly to make sure all screws and bolts are tightened.
- Store in a cool and dry place away from children and pets, ideally in original packaging.

6. Disposal

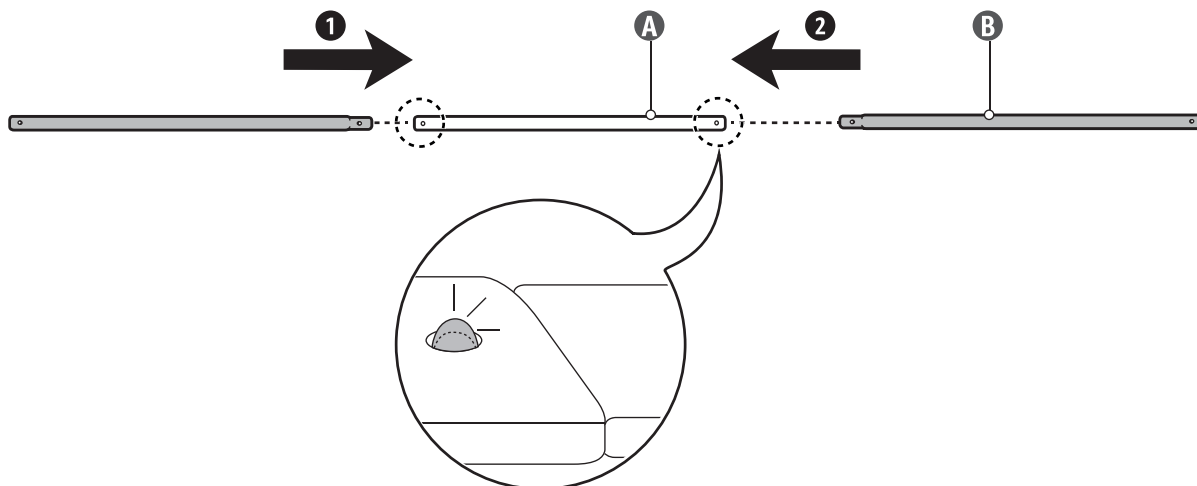

Dispose of the product according to local regulations. If in doubt, consult your local authorities.

7. Specifications

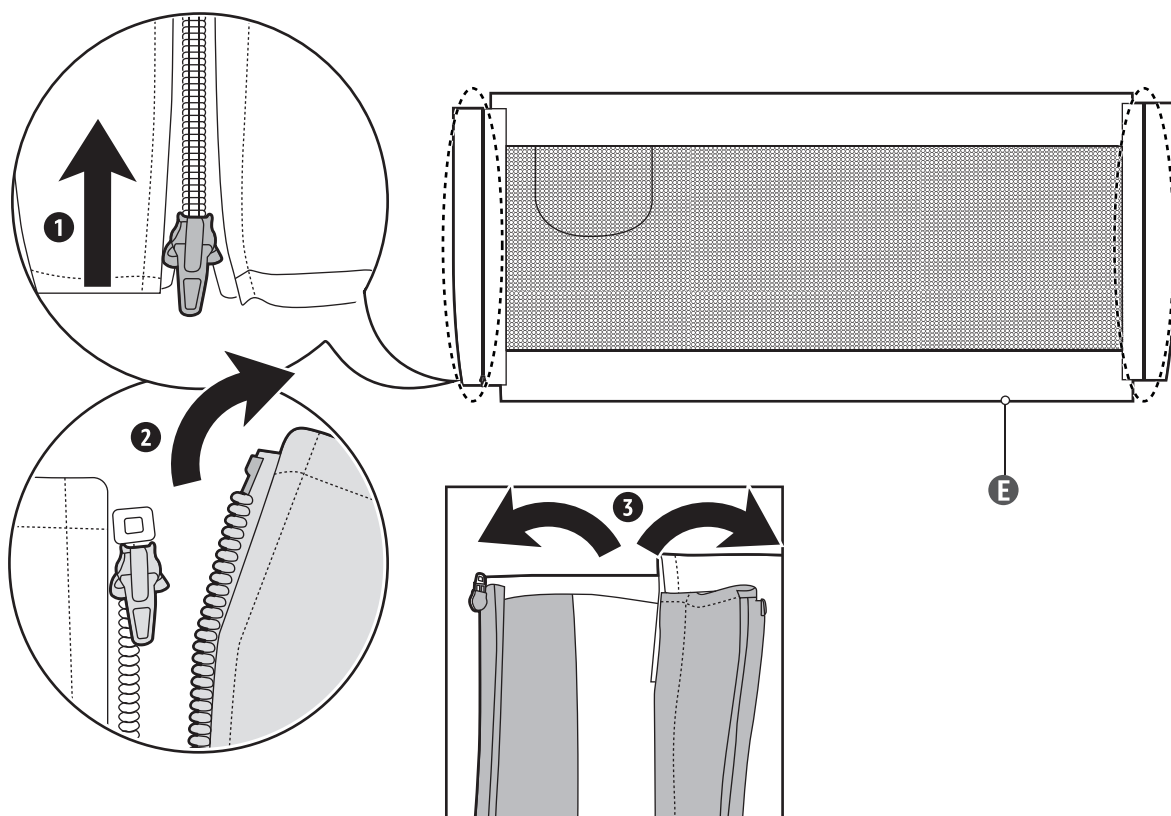

Net weight	approx. 2.81 kg
Dimensions (W x H x D)	180 x 25 x 81 cm
	Min. height: 69 cm
	Max. height: 81 cm

**1****2x****A (x 2)****B (x 4)****Assembly**

Push the metal pins of the 2 crossbars (B) to insert them into the ends of the center tube (A). Release the metal pins once they reach the holes of the center tube (A).

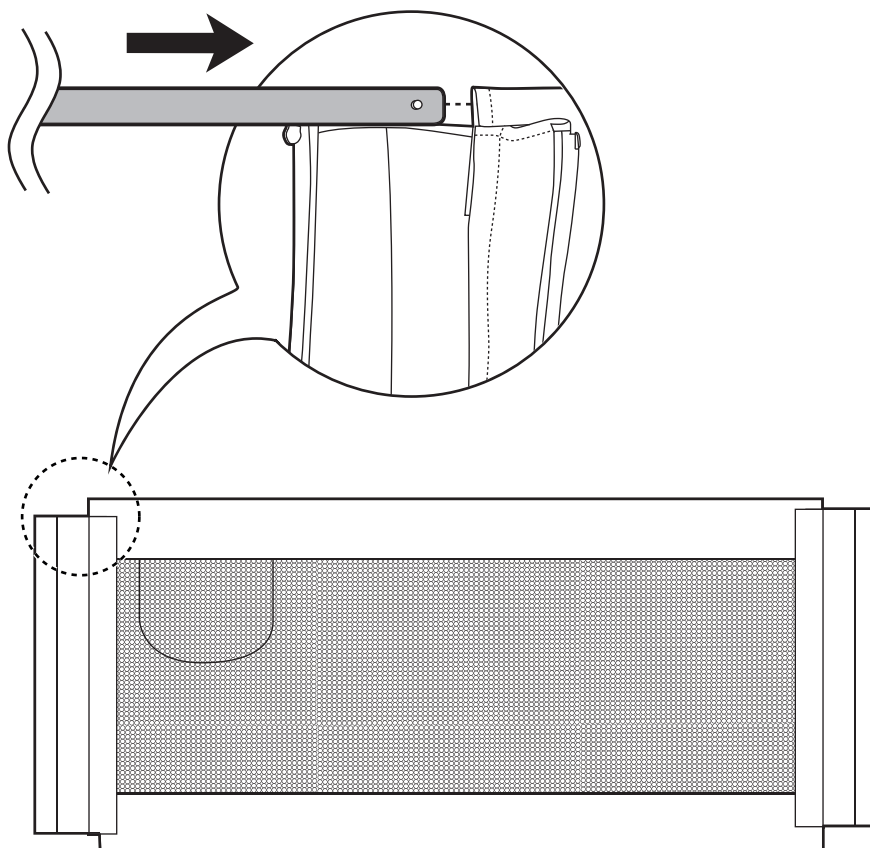

**2**

Unzip both sides of the net (E).

**E (x 1)**

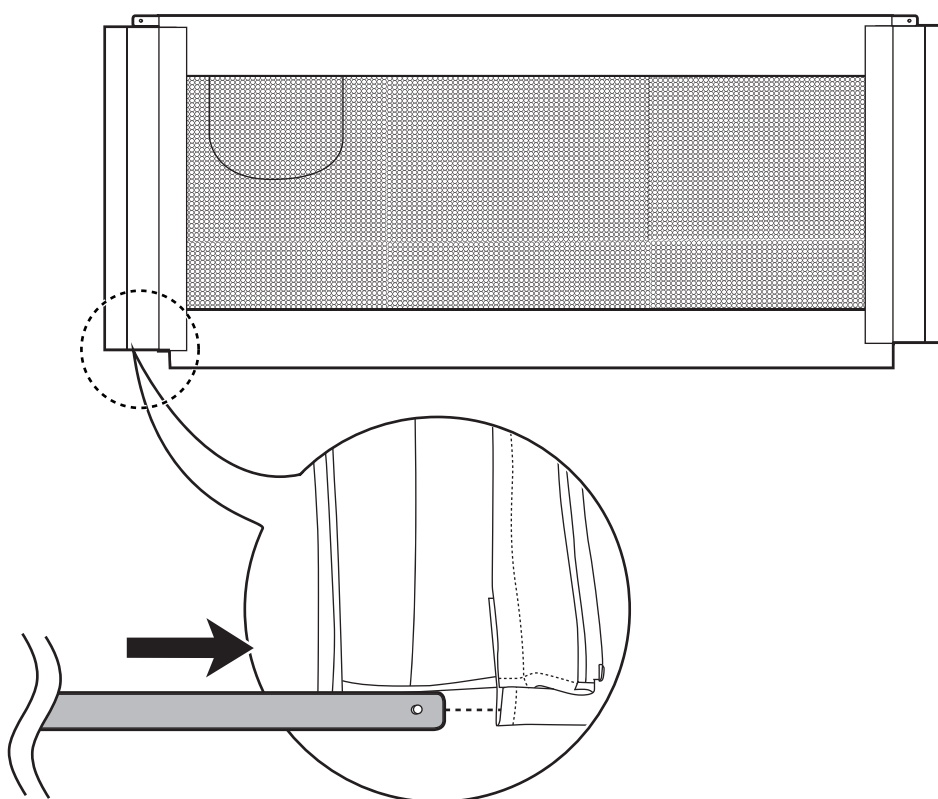

3

Insert one of the assembled crossbars into the top of the net.

4

Insert the remaining assembled crossbar into the bottom of the net.

5

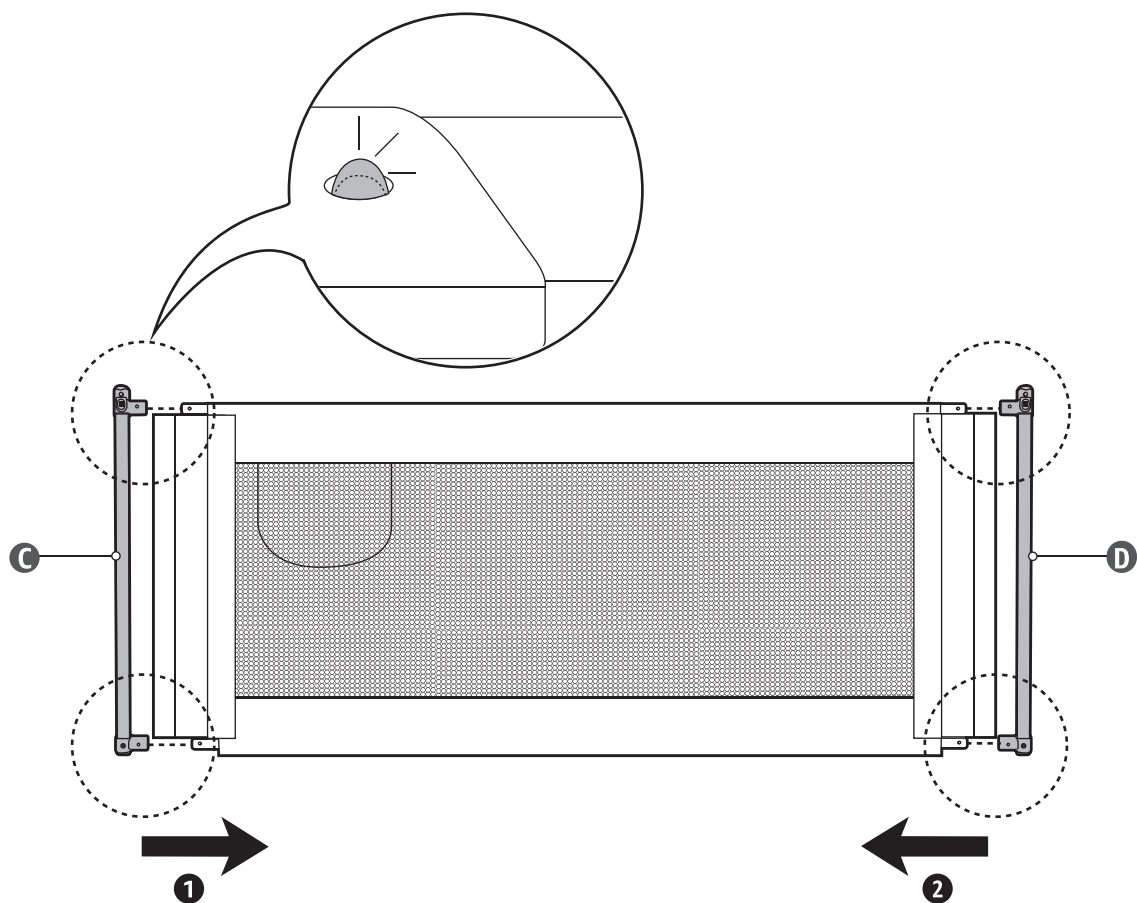

Push the metal pins of the left extension tube (C) and right extension tube (D) down to attach them to the sides of the crossbars. Release the metal pins once they reach the holes of the crossbars.

C (x 1)

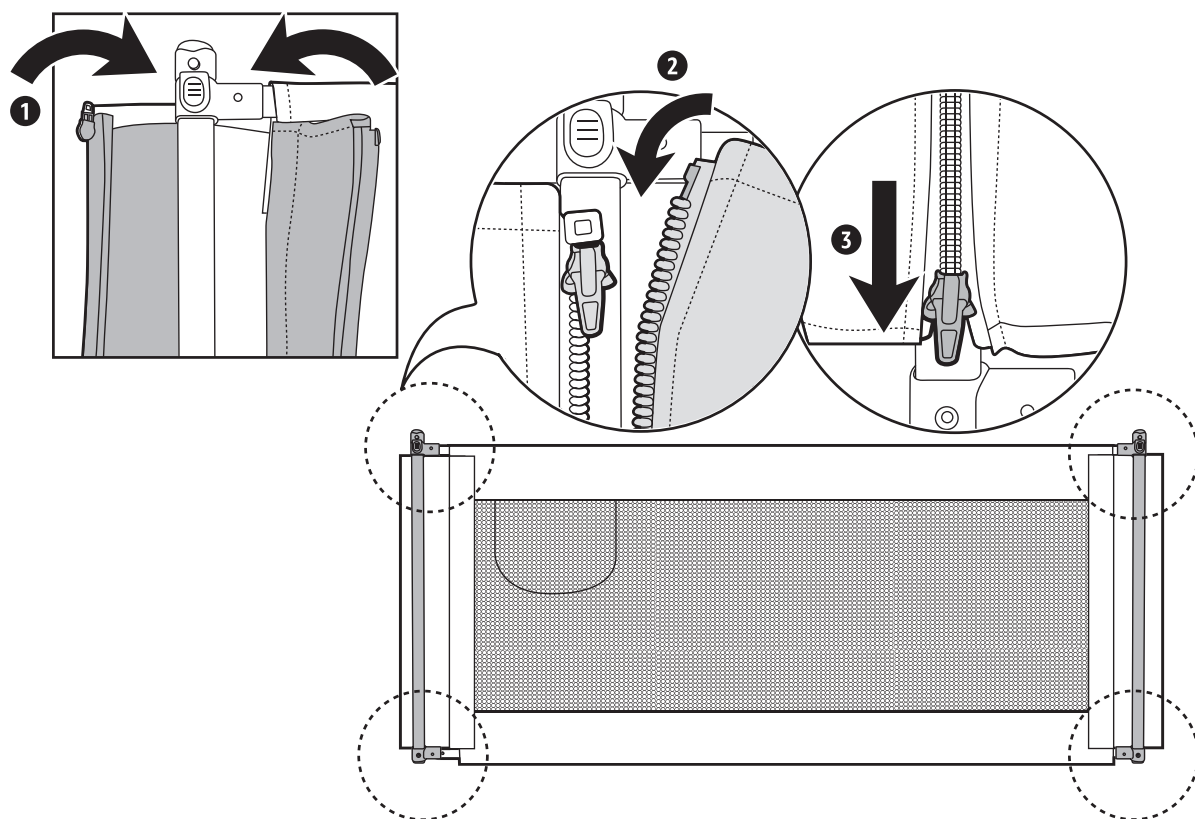

D (x 1)

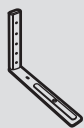

6

Zip the net around both extension tubes.

7

G (x 2)

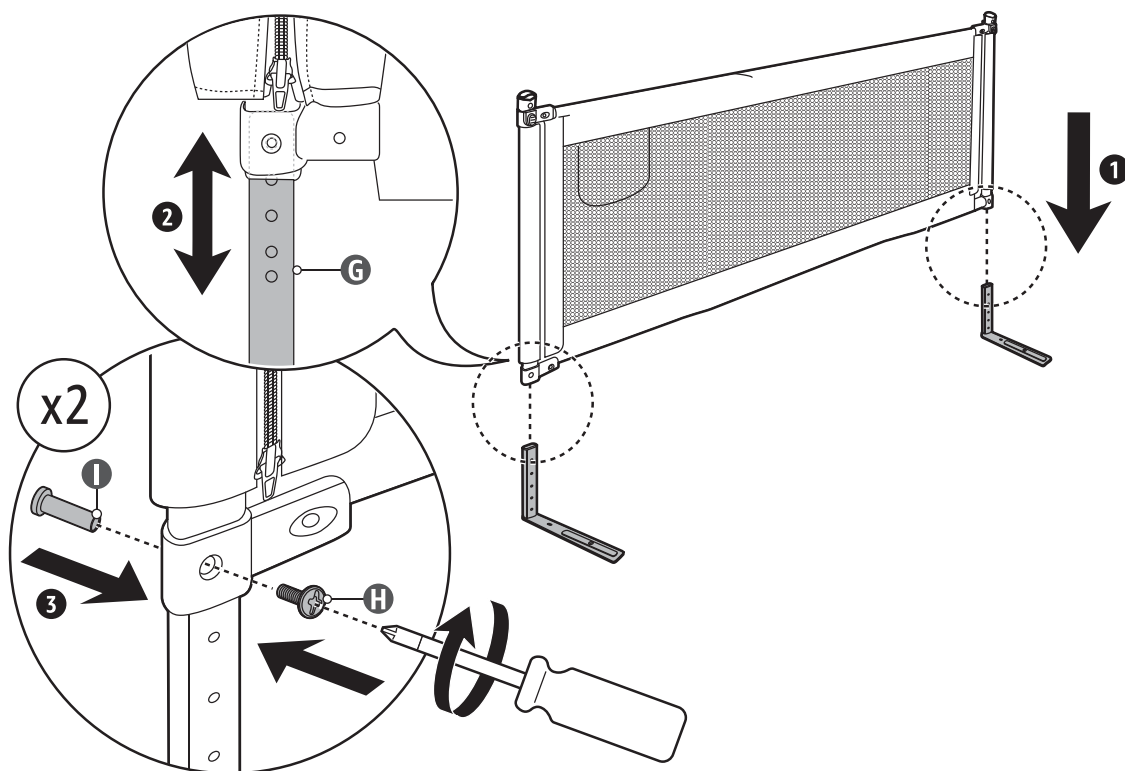

H (x 2)

I (x 2)

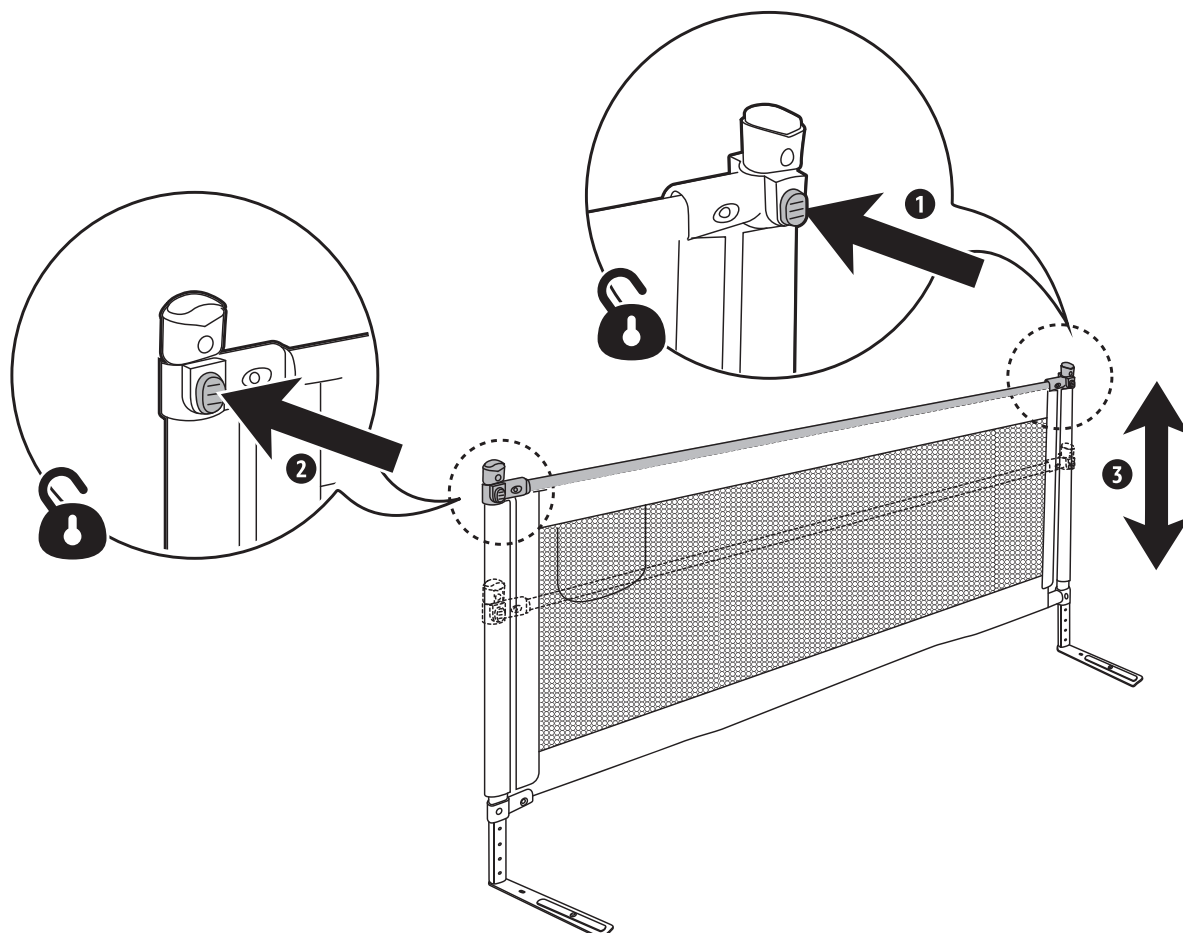

Insert the extension tubes into both feet (G). Adjust the placement of the extension tubes according to the thickness of the mattress. Screw the fasteners (H, I) together to secure the extension tubes and feet.

**NOTICE**

Adjust the height of the guard rail according to the thickness of any mattress to be used.

8

Press the buttons on each side of the extension tubes to raise or lower the net.

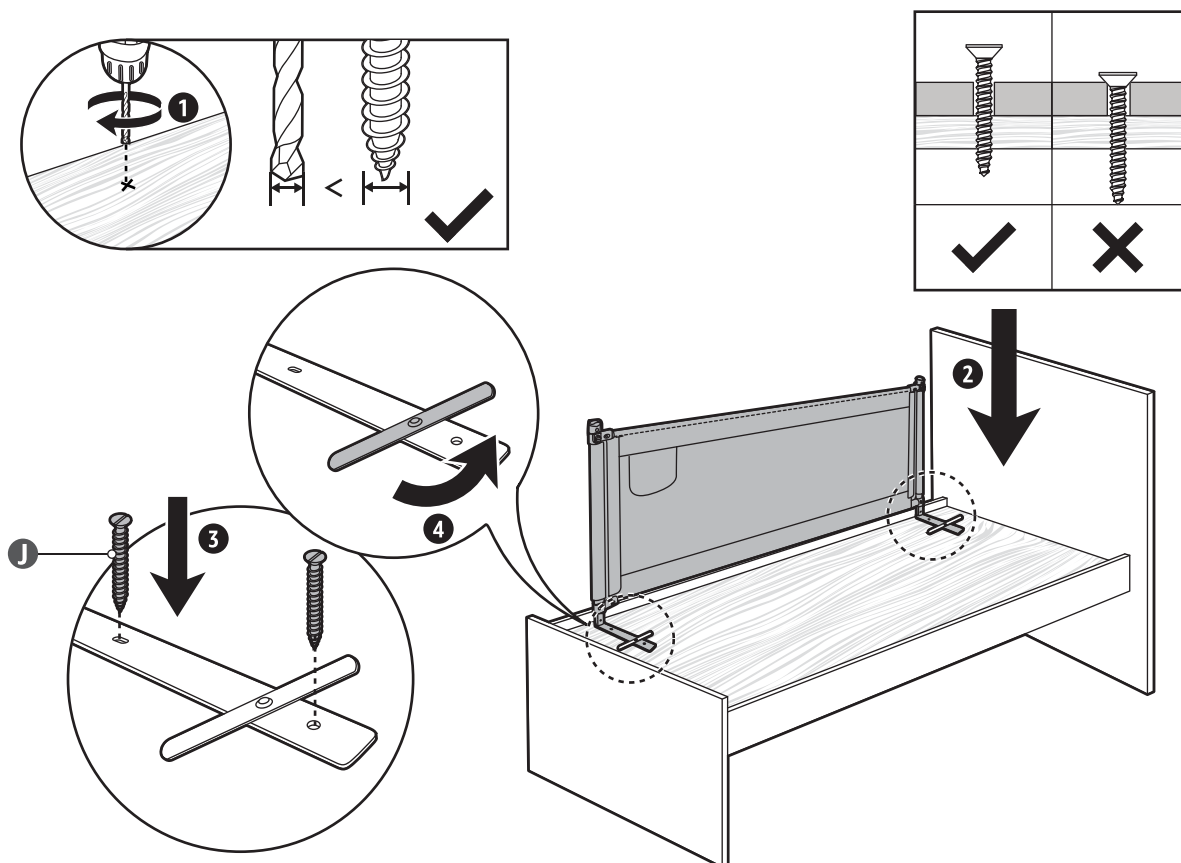

9

J (x 4)

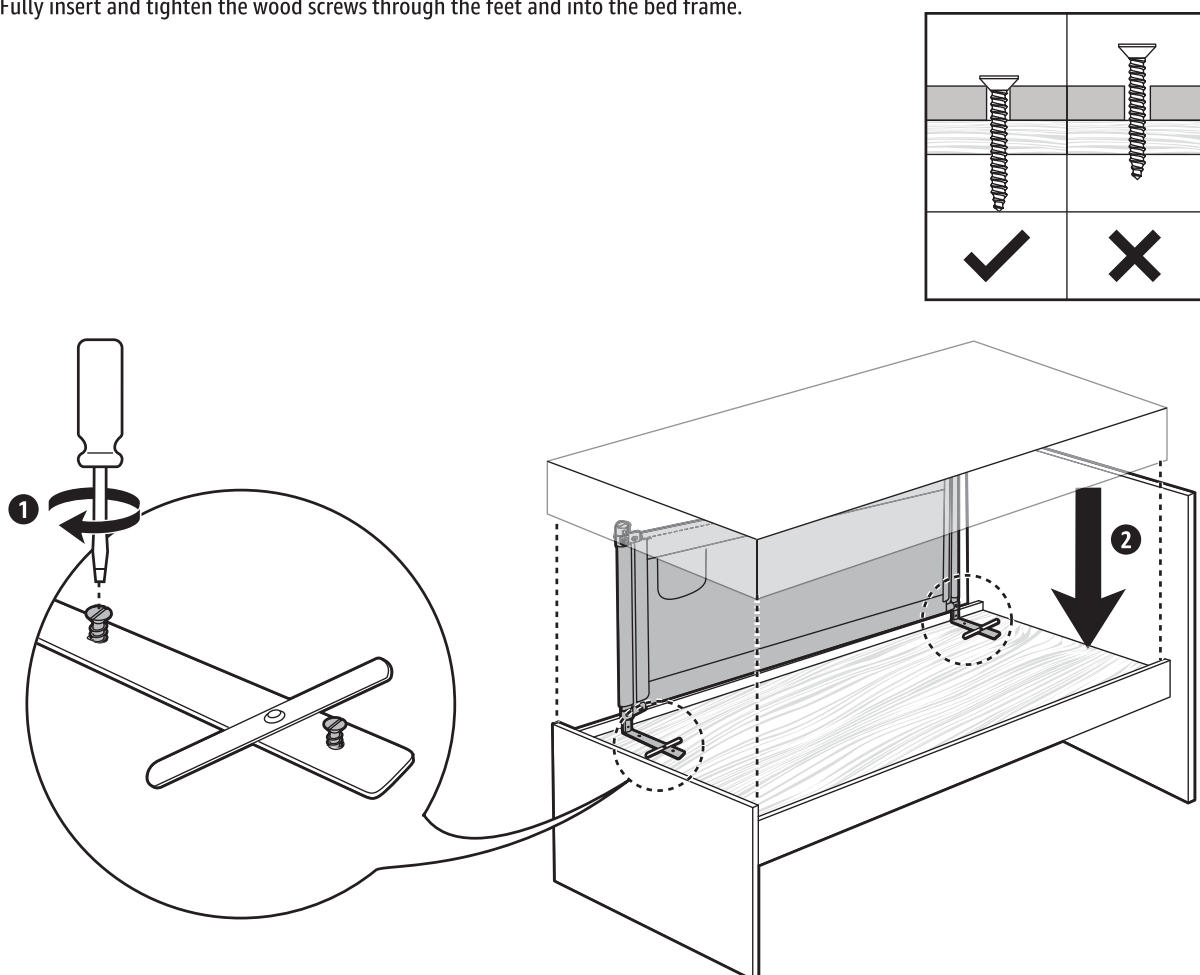

Optional: Attaching the guard rail to a wooden bed frame

Place the rail in the desired position on the bed frame and mark the position with a pencil. Drill two holes slightly smaller than the diameter of the wood screws (J). Align the rail's feet with the holes and fit the wood screws (J) through the feet.

10

Fully insert and tighten the wood screws through the feet and into the bed frame.

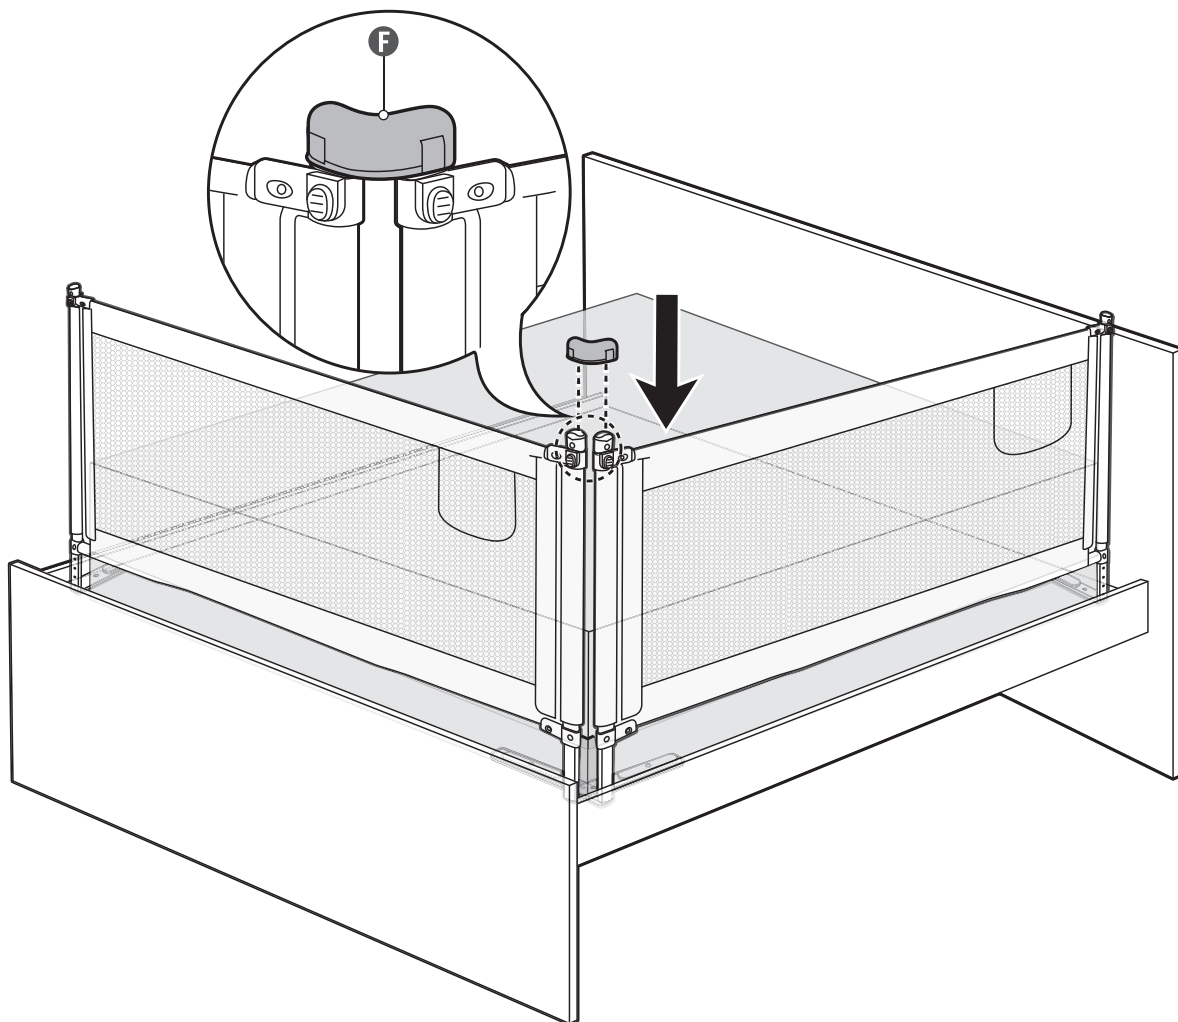

F (x 1)

Optional: Joining two guard rails together

Combine two rails together to create a corner space on a bed. Place the rails together at a 90° angle, forming an L-shape. Push the L-shape connector (F) on top of the corner to secure the position of the rails. Ensure that the legs are aligned vertically and securely inserted underneath the mattress.

NOTICE

When using two guard rails, ensure that both the length and width of the mattress are at least 180 cm.
