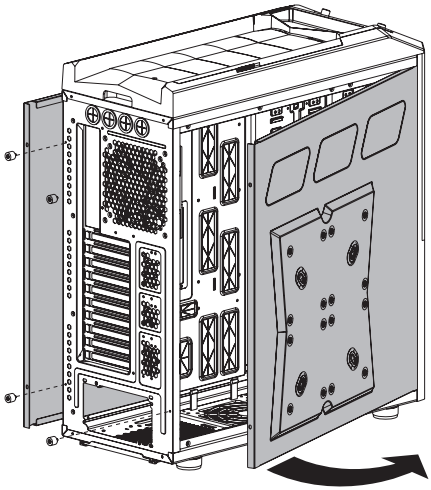
Installation Guide

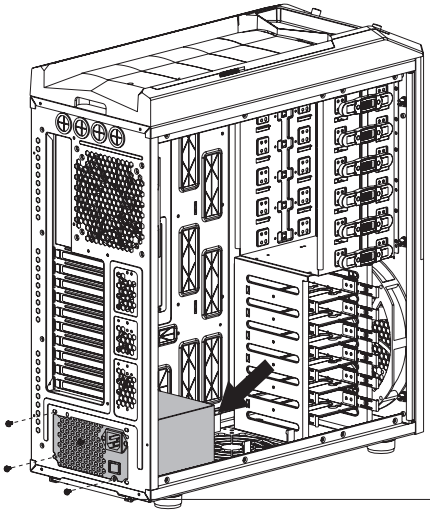
1. Open Chassis

1-1. Unscrew to remove left and right panels.



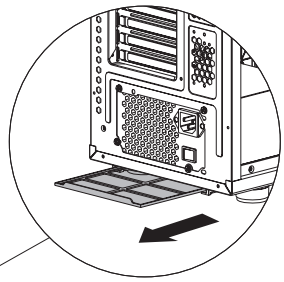
2. Installing Power Supply

2-1. Place the power supply from the left side into the chassis and secure with screws.



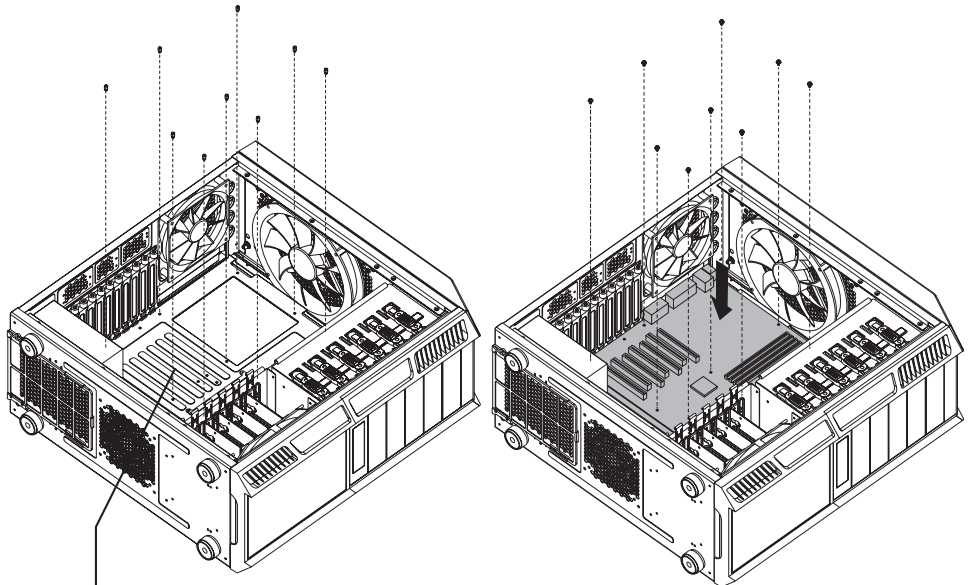
NOTICE:

- If your power supply is equipped with single fan (120mm, 135mm or 140mm), please have the fan face to the bottom.
- Please remember to clean the PSU dust filter regularly.



3. Installing Motherboard

3-1 Install motherboard stand-offs according to your motherboard's form factor.
3-2 Place the motherboard onto stand-offs and secure with screws.

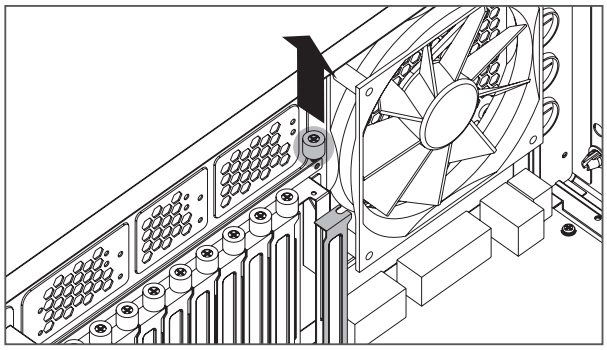


Form factor	hole number
Flex ATX	2,3,4,8,9
ATX	1,3,4,5,8,9,10,11,12
Micro ATX	2,3,4,6,7,8,9,11,12
Full ATX	1,3,4,5,8,9,10,11,12,13,14,15,16

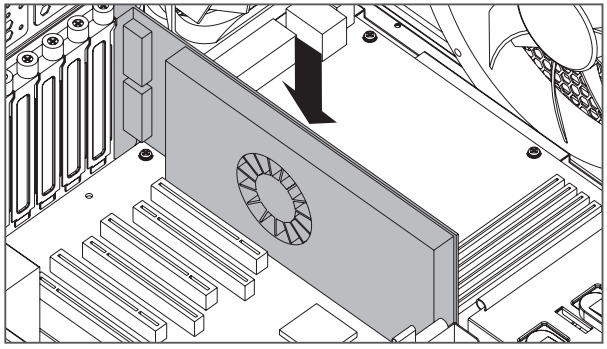
NOTE: Full ATX = Extended ATX

4. Installing Add On Card

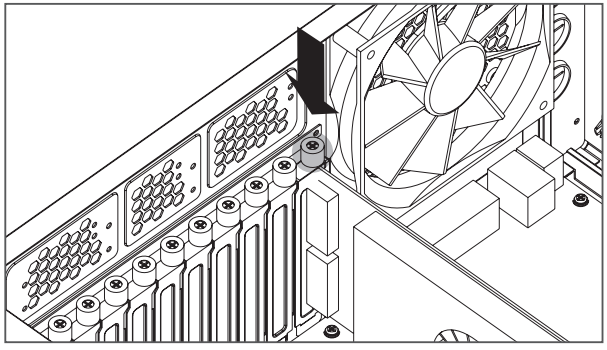
4-1. Release the kit and remove the expansion slot cover.



4-2. Install the add-on card.

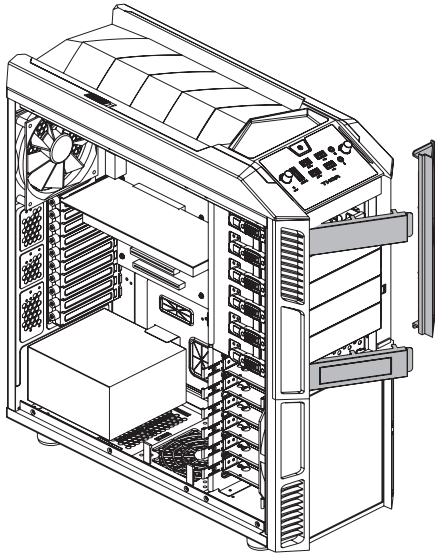


4-3. Fasten the kit to fix the add-on card.

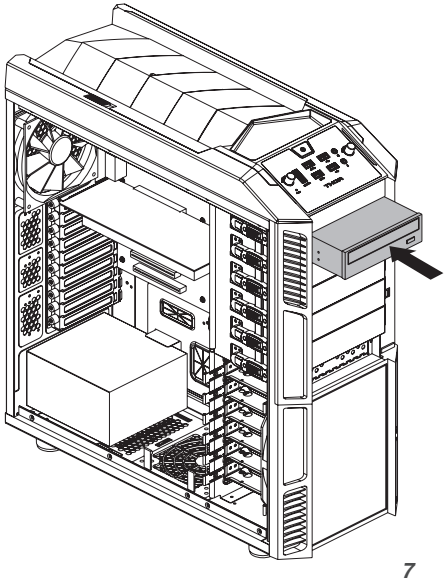


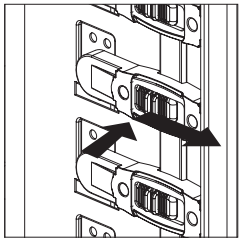
5. Install an External 5.25” Device

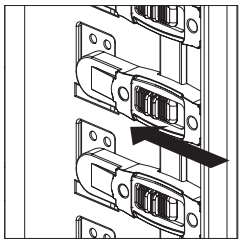
5-1. Remove the front panel right side bar.
5-2. Confirm which bay(s) you want to install device(s) then remove the bay cover.
5-3. Install the front panel right side bar back.



5-4. Insert the 5.25” device from the front panel into the chassis then secure with screw-less kits.

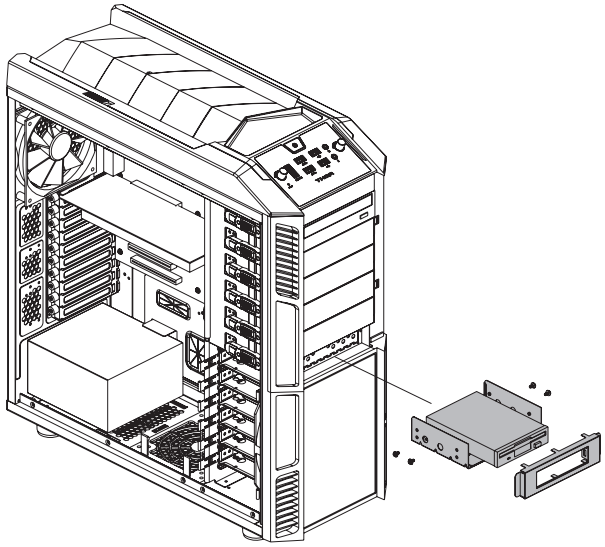






6. Installing External 3.5” Device

6-1. Secure the external 3.5” device onto the 5.25” to 3.5” adapter with screws.
6-2. Place it and the 5.25” to 3.5” bay cover to the place and secure with tool-less kit.



7. Installing 3.5”/2.5” HDD/SSD

7-1. Put the 3.5”/2.5“ HDD/SSD onto the HDD tray then secure with screws.
7-2. Slide it into its slot and push to bottom to secure it.
