|                  |             |
|------------------|-------------|
| Collapsed Height | 17"(44cm)   |
| Extended Height  | 43"(108cm)  |
| Net Weight       | 2.2lbs(1kg) |
| Load Capacity    | 11lbs(5kg)  |

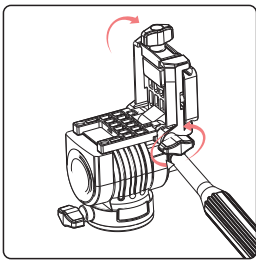

PRODUCT DIAGRAM

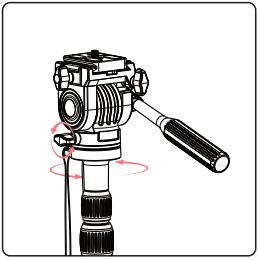

OPERATING TIPS

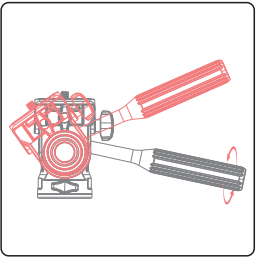

1. To remove the quick-release plate, loosen the locking knob. For quick mounting, simply attach the plate to your device's 1/4" threaded socket.

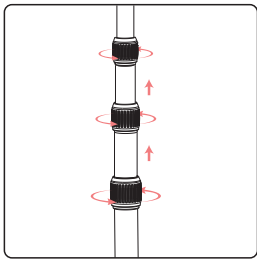

2. Adjust the tilt angle between 0-90° by loosening the portrait/landscape rotation knob. Tighten the knob to lock your desired shooting angle.

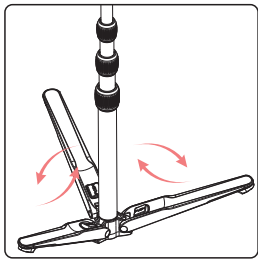

3. For horizontal adjustments, loosen the pan lock knob to swivel the gimbal head. Secure your chosen angle by retightening the knob.

4. Rotate the handle counter-clockwise to adjust the tilt angle. Lock the position by tightening the handle when you've achieved the desired angle.

5. Extend the tripod legs by loosening the leg lock knobs and pulling the sections outward. Once at your preferred height, tighten the knobs clockwise to secure.

6. a. Deploy the tripod by pulling the support legs outward until they click into full extension. b. To collapse, press the PUSH button to retract the legs smoothly.

PRECAUTIONS

-  Do not exceed the maximum load capacity.
-  Always ensure all components are securely tightened and operate the product in a stable condition.
-  Avoid using the product in temperatures below -20°C (-4°F) or above 70°C (158°F).
-  Do not leave the product exposed to direct sunlight for extended periods.
-  Never carry or move the product with mounted equipment attached.
-  No additional lubricant is required. If lubrication becomes necessary, use only standard lubricating oil or grease.
-  For your safety, keep the product away from all electrical power sources.

WARRANTY

This product is covered by a 12-month warranty for manufacturing defects
