

Quick Start Guide

Install your **Wipro smart light**
in a few simple steps

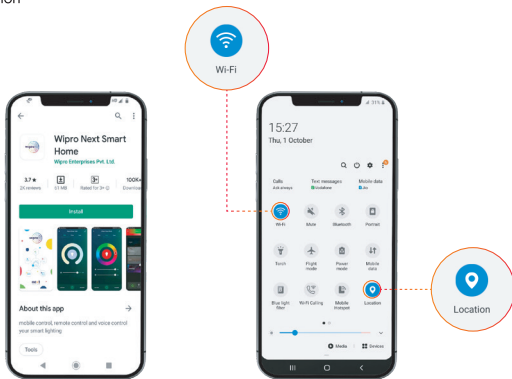

1

SETTING UP WIPRO SMART LIGHT

Fix the light and turn it on to start the process

Step 1: Download Wipro Next Smart Home App from Google Play or App store and register your account

Step 2: Connect your Smartphone to your Home Wi-Fi (2.4 GHz) and turn on mobile location

* If you have dual band router please select 2.4 GHz WiFi

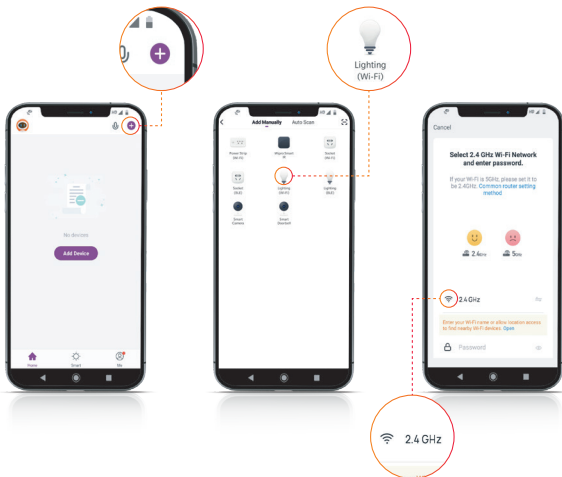

2

SETTING UP WIPRO SMART LIGHT

Step 3: Open the Wipro Next Smart Home App and tap on the + icon on the app to "Add device"

Step 4: Select "Light Source" (WiFi)

Step 5: Type in your home Wi-Fi Password

3

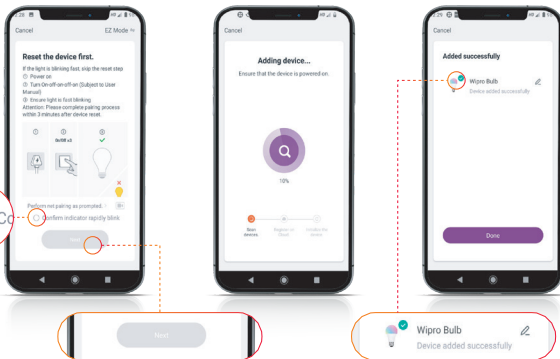

SETTING UP WIPRO SMART LIGHT

Step 6: Tap on 'confirm indicator rapidly blink' when the light starts to blink rapidly.
Click on Next

(If the light doesn't blink, switch the light off and on 3 times repeatedly and wait for few seconds to make it blink)

Step 7: Wait a few seconds for the light to be added to Wipro Next Smart Home App.

Step 8: Once its added, a screen appears with the message "added successfully", then click on done to finish the pairing process

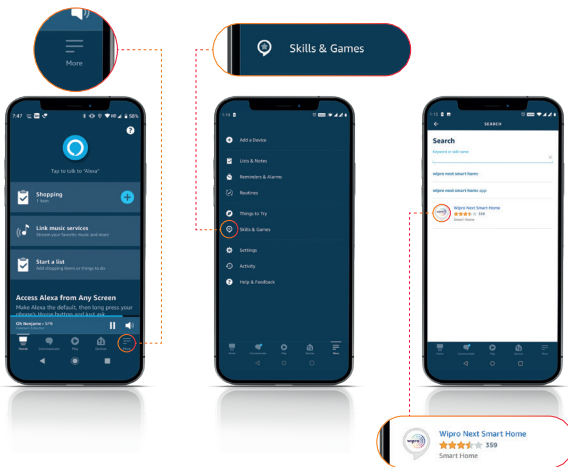

4
