

9 Feet Umbrella with Tilt and Crank
Installation Manual

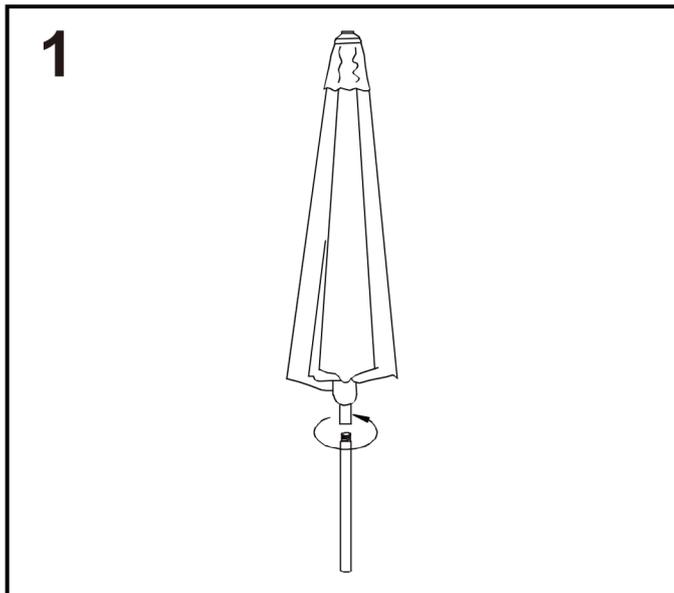

Umbrella supplied is fully assembled. Please read instructions prior to installation.

Take all parts out of the box. If any parts are missing, please do not return to the place of purchase directly. Please email us first service@abbapatio.com

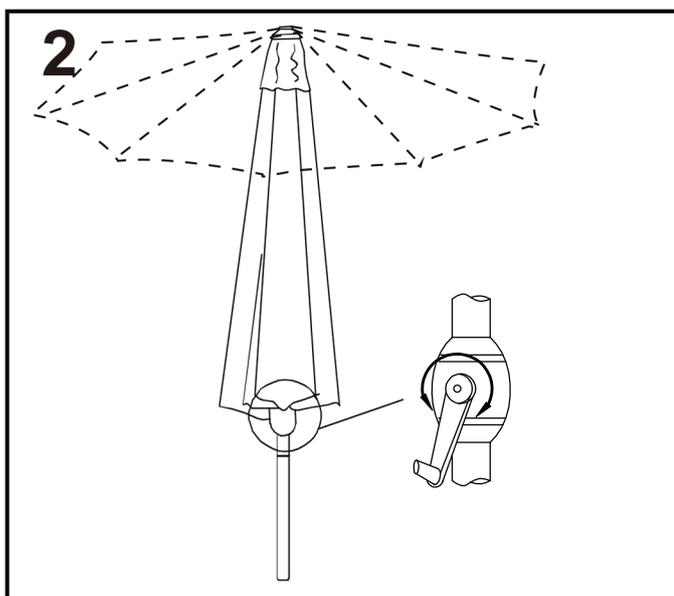

A	1	
B	1	

A. Assembled umbrella frame with canopy 1pc

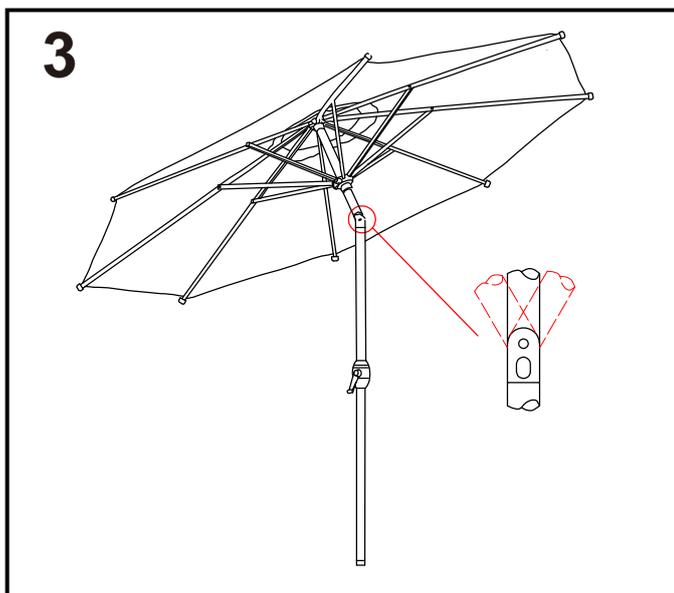

B. Holder pole 1pc

1. Screw to connect the two parts (A and B)

2. Turn the crank handle clockwise in the up direction to open the canopy fully, take care not to force the mechanism. Turn the crank handle anticlockwise in the down direction to close the canopy. To close the umbrella it must be in the upright position.

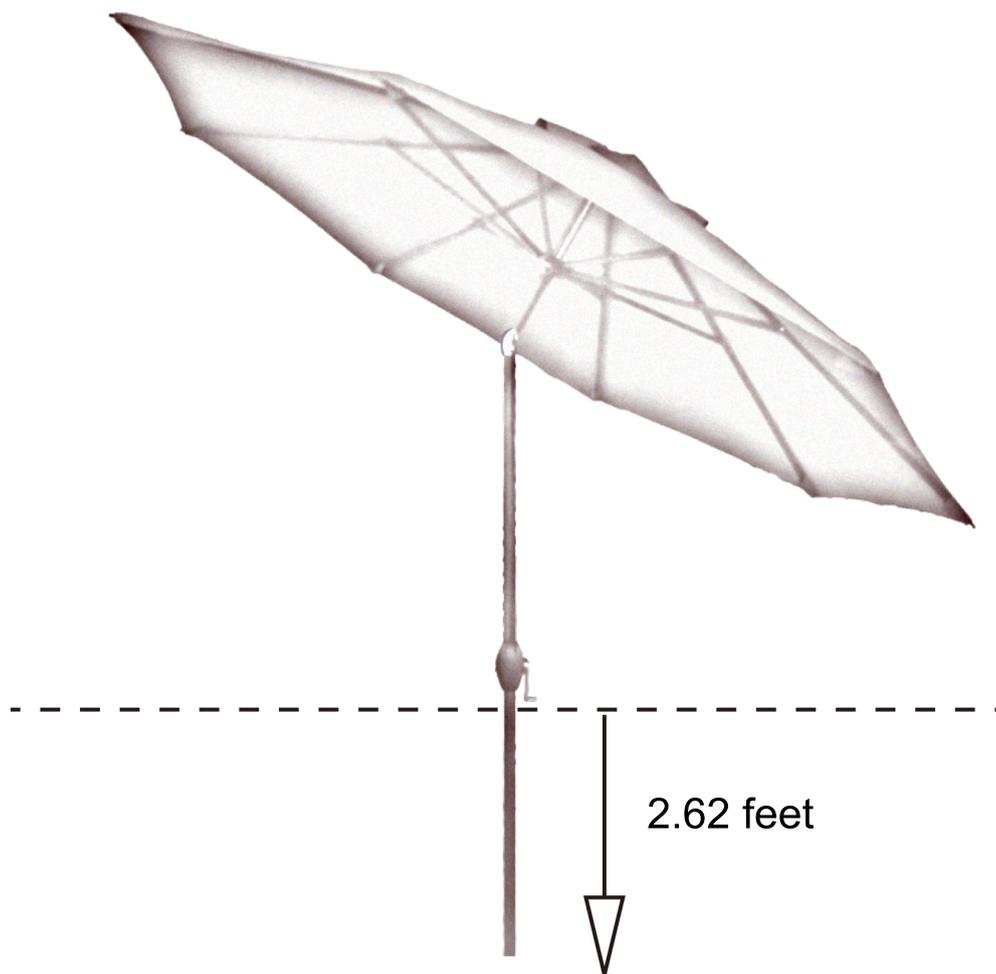

3. Use one hand to hold the pole and then press the button. Use the other hand to hold the umbrella canopy to tilt left or right to change its direction.

While the base is NOT part of the umbrella frame, it is a crucial part of the overall components as it gives the umbrella stability and allows the umbrella to remain upright. Please check below to choose the suitable base.

Shade Sizes(ft)	Positioning	MINIMUM Base Size Suggestions(lbs)
9	Thru Table	44
9	Free Standing	55

The pole diameter is 1.5 inches (38mm), the base diameter needs to be wider than 1.5 inches.

And if you install this umbrella with your table, please make sure the crank handle is higher than your table.

Thanks for choosing Abba Patio products.

We'd love to hear your thoughts and comments.

If you are satisfied with our products and service, please let us know.

If you have questions or feedbacks, we're here to help!
