Ergonomic Mouse

User Manual

Contact Us: Support.Lekvey@foxmail.com

Note: The backward/forward buttons are not recognized on the Mac OS X.

Note: The wireless USB receiver is at the bottom of the mouse, the included cable is only for charging.

WARM TIPS:

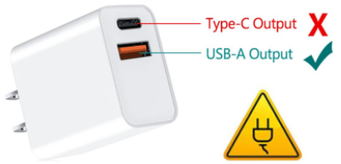

To protect the mouse battery, we recommend using 5V-1A or 5V-2A chargers. Fast chargers may damage the mouse.

****[The type-C to C charging cable can NOT charge this mouse. Instead, please use our package included USB-A to C charging cable.] ****

Charging Cable:

Charger Block:

OPTICAL VERTICAL MOUSE - HEALTHY MOUSE

This Lekvey ergonomic mouse is full of vitality, innovation, and has many health benefits. By changing the way you use your wrist and arms, you will effectively reduce pain and discomfort.

The ergonomic mouse is different from a traditional mouse, it does take some time to get used to using a mouse at a different angle. Once you get used to it, you will love it so much, and it will also be helpful to your wrist.

Compatible Systems :

Windows 2000
Windows XP
Windows Vista
Windows 7
Windows 8
Windows 10
Linux, Android (Note: Not fully compatible with Mac, OS System)
Note: The backward/forward page thumb buttons are not recognized on the Mac OS X

FAQs:

Q1: Is there any indicator light when the mouse is fully charged?

A: Normally, the power indicator on the mouse side will turn red while charging, and the red indicator will go off when the mouse is fully charged. **(Warm Tips: To protect the mouse's battery life, we recommend you use a 5V-1A or 5V-2A charger and USB-A to C charging cable to charge the mouse.)**

Q2: Battery Issue, the mouse won't keep charging, what should I do?

A: Normally it needs 3-4 hours for a full charge and it can last for 150 hours after being fully charged. ****[The type-C to C charging cable can NOT charge this mouse. Instead, please use our package included USB-A to C charging cable.] ****

Q3: Scroll Wheel Issue. My mouse scroll wheel stop working, what should I do?

A: Please try this mouse on another device to see if it can work or not, and try to clean the scroll wheel. If it still couldn't work well, please contact customer service at【support.Lekvey@foxmail.com】for further assistance.

Q4: Can the mouse buttons be programmed?

A: No.

Q5: Where is the USB receiver/USB Dongle?

A: The USB receiver is at the bottom of the mouse.

Q6: Will the mouse sidebar light up?

A: No. Our upgraded mouse has removed the blue side light, and only a slight red light will filter through the bottom.

Q7: Can the mouse work on MacBook?

A: This mouse is connected via a unifying USB receiver, with no Bluetooth or Type-C. The backward/forward buttons are not recognized on the Mac OS.

Q8: How to access DPI settings?

A: For the adjustable DPI button, it has 3 levels(800/1200/1600), when you press it every time, the moving speed of the mouse will be different, it will not be displayed on the screen or the light, but to feel the change of the mouse's moving speed. When you move the mouse, you will feel that the mouse moves at different speeds at different DPI levels.

Q9: This ergonomic mouse jump, lag or it doesn't work anymore.

A: 1. Please check if the battery is out of power first, because the low battery will affect the performance.
2. If you have already charged the mouse battery, please restore the factory settings as the following steps:
Restore mouse setting:
-Re-insert the USB receiver into ANOTHER USB port of the computer
-Turn on the power switch again
-Press and hold the left button, right button, and middle button（scrolling wheel）on the mouse, and keep holding the buttons for three more seconds then release the buttons.

Q10: The mouse is hard to press the button.

A: Please adjust the grip position and the point to press the mouse, because this ergonomic mouse is different from the traditional mouse, it does take some time to get used to using a mouse at a different angle. Once you get used to it, you will love it so much, and it will also be helpful to your wrist.

Q11: Can it work via Bluetooth?

A: No

Q12: Lost the USB dongle receiver. Is there any way I can get a replacement receiver?

A: Please contact customer service at【support.Lekvey@foxmail.com】 for help.

Maintenance:

1. Use our package included USB-A to C charging cable, the type-C to C charging cable can NOT charge this mouse.
2. Use the specified 5V-1A or 5V-2A charger to charge the mouse. PD fast chargers may damage the mouse.
3. Do not attempt to remove the device or replace the lithium battery, or it will make the warranty be invalid and may cause it to short circuit; fire, and explosion danger.
4. The battery will discharge if do not use for a long time.
5. Disconnect the device after the battery has been fully charged. Overcharging the battery will shorten the life of the battery.
6. Use only a damp cloth with mild soap to clean the device. Solvents and other cleaning agents may cause damage to the device.
7. Don't expose the device to a very hot or very cold environment. Extreme temperature can make electricity shorten the mouse life.
