JUICE RECIPES

Leading a healthy lifestyle

Leading a healthy lifestyle

Thank you for using our Juicer we are dedicated to bring our consumers a holistic and health lifestyle.Our product completely retains the flavor and nutrients of vegetables and fruits, and the fiber is separated to the greatest extent, so that it is more suitable juice.

A glass of fresh organic juice, containing natural vitamins and minerals, juices can provide the human body needs, and also can easily absorb all the essence.

Tips

1.Avoid drinking higher acidity juice on an empty stomach, it is better to eat some staple food to avoid stomach discomfort. Drink a cup of cool(or warm) water instead of rinsing off, every day should not be too many times.

2.The choice of ingredients is important.The ingredients should not be too hard or too soft.Too hard ingredients will break the juicer.Too soft ingredients,e.g. bananas.Rich fruits, mango,are difficult to foreground.

3.Before juicing, the ingredients must be cleaned, it is common for masticating juicers, and to avoid the peel juicers. The fruit peels are very good nutrition wine, and can be used for making cake, rice, soup, etc.

4.Please drop slowly the ingredients juice by juice, so as to get a higher yield from juicing. If the juicing screw is clogged, please press"RVS"for a few seconds to unclog.

5.Please turn off the power and unplug the power cord for the rest of 5 hours to take out the filter residue and clean.

6.Please clean up the juicing parts after each use.
