Two different ways to install the rear seat covers →

Rear Seat Installation Manual

For rear seats can be uplifted, the **BEST** way to install is as below:

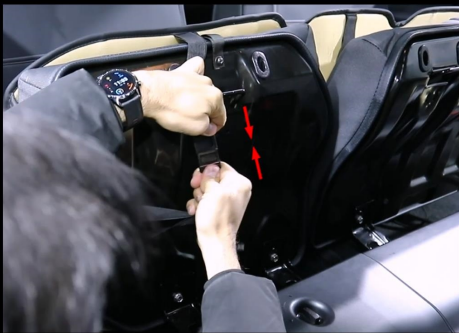

1.Put the cushion on the chair

2.Lift up the seat

3.Pull the buckle through the elastics

4.Connect the two together

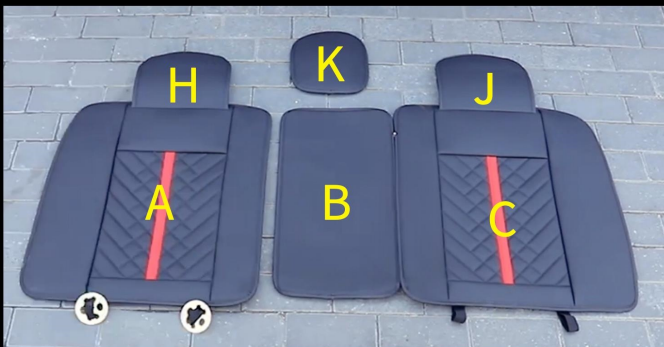

5.Right and left at the same step

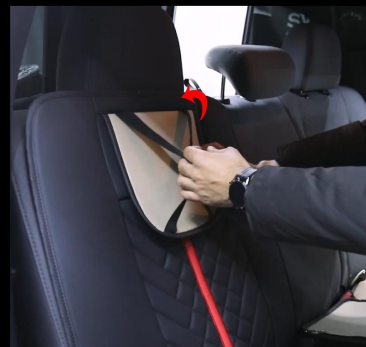

6.Put down the seat

How to install the Rear Seat Cover?

▶ Since you do not have to uplift the seat, these pictures will help you to understand better. Follow the steps below:

Connect B with A&C with zippers.

1.Install the headrest covers H and K and J.

2.Pull zipper connect A and B and C

3.Push the Round Discs into the gap.

4.Finished
