Words From The Product Designer

Hi friends,

This is Mason from Glocusent (again), and it is so nice to connect with you through our original designed product.

Glocusent has been in the LED light industry, especially the book light category, for over 3 years now. We noticed that lots of our customers are readers, artists, photographers, architecture, or hobbyists; and we think the clamp light can be a good addition to your workshop. The clamp light features a slightly heavy gripping device so that you can attach them to tables, beams, easels, pianos, headboards, and more.

The Glocusent Clamp Light can be directed like a spotlight, it is a great option for artists who need to illuminate specific areas of a workspace; with a brighter level of the light, it can illuminate a broader portion of a room.

Ok, now we are looking forward to seeing more and more artworks be created under the Glocusent Clamp Light. Don't forget to tag us on social media and show us your fabulous work!

Thank you for your support,
Mason

Press the Button to
Turn On or Off a
Timing Setting for
0.5 Hour

Precautions

- Use 5V/2A output wall plug to make sure the clamp light is working at its full capacity.
- Note: The power indicator light will turn green when the clamp light is connected with the power.
- An indicator light will turn green when the 30-min timing setting is on.
- Please avoid placing in an extreme temperature environment (either too hot or too cold).
- Disposal: When you are ready to dispose of the product after wearing it out, please make sure to follow the instructions of your local government for environmental and safety purposes.

Features

- 3 color temperatures:
 - Amber Mode 1800K – Blue-light-blocking promotes the production of melatonin after reading and before sleep.
 - Mild Mode 3200K – Soft and gentle light for general readings
 - Natural Mode 6000K – Restore the noon light for the best concentration
- 5 brightness levels, with the brightest level up to 200LM
- Smart lamp head: Glocusent designers carefully designed the lamp head with lots of effort to make sure the lighting source is distributed evenly from the LED beads, so the light can be soft and cozy enough to better avoid your eye strains
- Timing function: 30 minutes timing to turn the light off automatically. You can peacefully leave the book aside and go to dreamland
- Battery power indication light
- The sturdy clamp can be opened to a maximum of 2.36 inches in width, which allows use for all kinds of thick surfaces
- The gooseneck is able to be bent at 360 degrees with memory function, which means it will not bounce back when you fix the neck on your comfortable positions.
- 78.74-inch (2-meter) long cable, easily move around the light wherever within 78.74-inch (2-meter) area

Product Specifications

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark, and we're here to deliver that light to ensure that our users are always progressing. From neck lights to portable ring lights, every one of our products is designed to provide light in a way that's simple and convenient. At Glocusent, we refer to three core principles; glory, focus, and moments.

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that **glory**.

Focus: Our team at Glocusent is **focused** on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: Moments are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.
