From 1 Year to 2 Year Limited Warranty Item#EUC2-1000-RGB

**QUICK START GUIDE**  
EUC2-1000-RGB 0924 v1.1

### GETTING STARTED

Thank you for choosing the **Energizer**, Smart Under Cabinet Ultra Thin Light Bars. This quick start guide will help you with setup and

**Package Includes:**

- 2 Under Cabinet Lights
- Power Adapter
- Remote Control
- Double Sided Adhesive Tape
- Controller
- Mounting Clips And Screws
- User Manual

**What You Need:**

- **App**
- **2.4GHz WiFi**
- **Phillips Head Screwdriver (not included)**

Before setup, make sure your phone is connected to the 2.4GHz WiFi network that your device will be placed on. You may also need to turn on location and Bluetooth to find nearby networks.

### CONNECT THE DEVICE

#### STEP 1

Download the free **Energizer**, Connect app from the App Store (for iPhones) or Google Play Store (for Android phones).

#### STEP 2

Make sure your mobile device is connected to your **2.4GHz WiFi** network.

Open the app and click "Create Account" by following the on-screen instructions.

After your initial sign in, your app will remember your password and log you in automatically. You can also choose to manually log out under Settings in the Main Menu.

Register by Email

Click **Create Account**

You may need to check your Spam folder for the verification code

#### STEP 3

Plug the power adapter into a power outlet. The Smart Under Cabinet Ultra Thin Light Bars should start flashing for pairing mode.

NOTE: The Smart Under Cabinet Ultra Thin Light Bars should start blinking red rapidly (about 4 times per second) for EZ pairing mode. If it is not blinking, hold the controller button for more than 5 seconds to reset it.

LED Behavior	Device Status
Flashing Rapidly	EZ Pairing
Flashing Slowly	AP Pairing

#### STEP 4

Make sure your **Bluetooth** is enabled. After logging in, click "+" on the top right of the screen and select "Add device".

The app will detect the WiFi/BLE enabled device and ask if you want to add it

Make sure the check is marked next to the device you want to add, click the + button

Make sure your 2.4GHz network is selected, input the password and press confirm

NOTE: Once successful then go directly to Step 7. If the app does not detect your device, skip this part and proceed to Step 5.

#### STEP 5

Select the Lighting category and confirm that the Smart Under Cabinet Ultra Thin Light Bars are still rapidly blinking. Click "Confirm indicator rapidly blink".

Help: Switch between pairing modes. See troubleshooting page 14.

#### STEP 6

Confirm that the displayed WiFi network is your 2.4GHz WiFi network, enter your WiFi password and click "Confirm".

Help: If you need information about 2.4GHz WiFi networks, click the link to go to our Connect FAQs on our website.

#### STEP 7

Your Smart Under Cabinet Ultra Thin Light Bars will now be connected to the network. Confirm the settings for your device and then Click "Done".

TIP: You can put your Patio String Lights directly in a room by selecting one of the available rooms. Click the button to change the name of the product.

PROCESSING TIME 1-2 minutes

Your **Energizer**, Smart Under Cabinet Ultra Thin Light Bars are now ready to use. You can now change color, dimness and set schedules. We hope you enjoy using your **Energizer**, Smart Under Cabinet Ultra Thin Light Bars. ### INSTALLATION

#### STEP 1

Determine where you will install your Smart Under Cabinet Ultra Thin Light Bars. Make sure the location is still within the range of your Wi-Fi network and that it is close enough to a power source for the cord to reach.

#### STEP 2

Position the included mounting clips where you want to install the Light Bars (2 clips per Light Bar). Pre-drill a pilot hole and attach the mounting clips with the included screws. Connect the Light bar to the mounting clips by pressing them in firmly.

### INSTALLATION

#### STEP 3

Plug the adapter into your wall outlet then connect the other end into the hand sweep controller. Connect the controllers USB-C cable into one of the Light Bars. Then you can connect the second light bar with the included two sided USB-C cable.

NOTE: Use the double sided adhesive on the back of the hand sweep controller to mount it on your wall or underneath your cabinet.

### HOW TO USE

#### BUTTON CONTROL

Use the built-in button controller to select from a number of preprogrammed colors and lighting effects.

- **SWEEP SENSOR**: SWIPE for ON/OFF (hand must be within 2in). Hold hand over to adjust the brightness.
- **MODE/RESET**: Single press - reset device
- **COLOR**: Single press - change between colors

When powered off and on again, the device will resume the last used lighting mode.

#### APP CONTROL

In the **Energizer**, Connect app you can customize your experience by exploring color, modes, scenes & music syncing.

- Color/White Scene Selection
- Color Adjustment
- Timers and Schedules
- Power

### VOICE ACTIVATION

To enable voice access for your Smart Under Cabinet Ultra Thin Light Bars, you will need to link the **Energizer**, Connect skill with your choice of voice assistant.

#### Voice Activation for Alexa

Make sure your Alexa device is installed and set up first.

#### STEP 1

Open your Alexa app.

#### STEP 2

Open the menu to search for "Skills".

#### STEP 3

Search for & choose **Energizer**, Connect.

#### STEP 4

Authorize your account with the Alexa skill using the username and password from your **Energizer**, Connect app.

#### STEP 5

Using the name you assigned your Smart Under Cabinet Ultra Thin Light Bars, you can ask Alexa to turn on/off your Smart Patio Lights. Ex: "Alexa, change bedroom light strip to red".

#### Voice Activation for the Google Assistant

Make sure your Google Assistant device is installed and set up first.

#### STEP 1

Open your Google Home app.

#### STEP 2

Click the "+" to add a new device.

#### STEP 3

Click "Set up device".

#### STEP 4

Click "Have something already set up?".

#### STEP 5

Search for & choose **Energizer**, Connect.

#### STEP 6

Authorize your account with the Google Assistant skill using the username and password from your **Energizer**, Connect app.

#### STEP 7

Using the name you assigned your Smart Under Cabinet Ultra Thin Light Bars, you can ask the Google Assistant to turn on/off your Smart Patio Lights. Ex: "Ok Google, change bedroom light strip to red".

#### Voice Activation for Siri

#### STEP 1

Open the Energizer Connect app and click the "+" at the top right of the Home Screen and select "Add Scene".

#### STEP 2

Select "Launch Tap To Run" and fill out the information.

#### STEP 3

Once your Smart Scene is created, return to the Smart Scene manager by clicking on the three lines in the top left of the Home Screen to open the main Menu, and then selecting "Smart Scenes".

#### STEP 4

Click the button at the bottom of the screen that says "Add to Siri".

#### STEP 5

Select your new Tap to Run Smart Scene from the list and click "Add to Siri".

#### STEP 6

Create a custom phrase for Siri to run your Smart Scene. (this can be any verbal command)

Now Siri can use your voice and custom verbal command to turn your Light Bars on or off, activate your favorite lighting pattern, adjust the device at the same time as your other smart devices, or whatever you've set up as your Tap To Run Smart Scene.

This device complies with Part 15 of the FCC. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: --Reorient or relocate the receiving antenna. --Increase the separation between the equipment and receiver. --Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. --Consult the dealer or an experienced radio/TV technician for help.

**RF Exposure Statement**  
To satisfy FCC's RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation. To ensure compliance, operations at closer than this distance is not recommended.

### TROUBLESHOOTING

#### HAVING TROUBLE WITH SETUP?

Don't return this product to the retailer, we're here to help! Please call us at 888-693-4189 or visit [www.energizerconnect.com](http://www.energizerconnect.com) for video tutorials, updated manuals and more FAQs for your device.

**My device won't connect to my network!**

1. Make sure you are connected to your 2.4 GHz network and your device is blinking red before you start trying to connect your device.
2. You may need to reset your device if you are having trouble. Check out page 2 for the location of your device's reset button.
3. To allow the app to locate the network, you may need to allow permissions for location and turn on your Bluetooth.
4. If you are not certain what type of network you have, contact your Internet Service Provider and ask them to create a separate, dedicated 2.4GHz network. You can also do this manually in your router's settings.
5. Try moving to a spot closer to your router for connecting.
6. You can also purchase a WiFi extender to increase your WiFi range and strength.
7. In some cases, you can try using the secondary pairing mode by clicking "Net Pairing Mode" on the Add Device screen (see bottom of page 3). Follow the on-screen instructions.
