How to start intercom

1. Please turn on the device first, and then turn on the Bluetooth of your cell phone to search the Bluetooth name of "WS15" to establish the pairing, and make sure the Bluetooth pairing is successful.
2. Open the Zello application and click " " click Options
3. Click "Push-to-talk buttons" and click the "+" sign of the interface icon, and press the "PTT" key on the speaker to establish a connection.
4. Click "PTT-Z", click "Button contact" and select the contact, select the contact to call and long press the "PTT" button on the speaker to start the call. (Make sure the volume is turned to maximum to ensure clear calls)
5. If you want to create a group chat, you need to have 2 or more friends. Click the " " symbol in the lower right corner of the "Recent Calls" page, select 2 or more people who want to call, and click "start" to create a group chat for team conversations.

If two device are powered on at the same time, will they be connected in series?
Since the Bluetooth name of each Bluetooth device is the same, we recommend that you power on the second device and connect it after successfully connecting one device.

Is it possible if someone in the same group does not have a device but only a mobile phone?
Yes.

Can device work independently without relying on a mobile phone?
No. device must always be connected to the mobile phone via Bluetooth and stay within the Bluetooth distance range.

Can device work independently without relying on the APP?
No. device does not have a built-in APP, so you must rely on the mobile phone app to use PTT.
