Warm tips

- *To avoid the risk of electric shock, do not disassemble or attempt to repair the unit.
- *Please make sure the camera is turned off before plugging in/out a TF card to avoid TF card damage or data loss.
- *Never dispose of the product in fire or water, which may result in explosion and/or injury.
- *Unplug this unit during lightning storms or when unused for long periods of time.
- *Protect the adapter cord from being walked on or pinched, particularly at plug outlets, convenience receptacles and the point where it exits the unit.
- *The unit should be situated away from direct sunlight or heat sources such as radiators, electronic heaters, stoves, or other units that produce heat. Avoid placing on top of stereo equipment that radiates heat.
