

## NOTICE DE MONTAGE

Abri en résine 5,32m<sup>2</sup> + kit de fondation

## INSTRUCCIONES DE MONTAJE

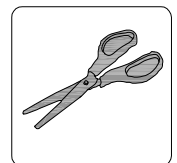

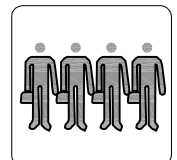

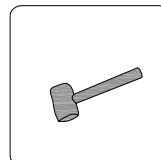

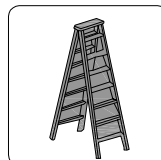

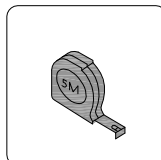

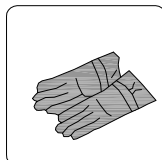

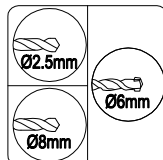

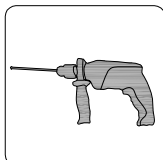

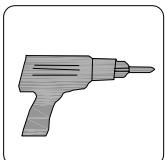

Caseta de resina 5,32m<sup>2</sup> + Estructura de base

## ISTRUZIONI DI MONTAGGIO

Casetta in resina 5,32m<sup>2</sup> + kit di fondazione

## AUFBAUANLEITUNG

Gartenhaus aus Kunststoff 5,32m<sup>2</sup> + Bodenrahmen

Merci de contrôler soigneusement l'ensemble des pièces qui constituent votre colis, d'étudier le plan de montage et les précautions à prendre avant le montage, pour rendre celui-ci plus facile et rapide. Il vous faudra également avoir consulté les réglementations sur les installations d'abris de jardin dans votre commune.

## **Instructions d'installation :**

Avant de commencer l'installation, veuillez à bien lire ces instructions, étape par étape, afin de vous faciliter le montage et de ne pas perdre de temps inutilement.

## **Lieux d'installation :**

Il faut que votre abri soit installé sur une fondation stable et plane (idéalement en béton), pour garantir sa stabilité dans le temps et une meilleure résistance aux intempéries. Le lieu d'implantation doit être idéalement protégé contre le vent, sec, ou avec un système permettant un drainage efficace des eaux de pluie.

## **Liste d'éléments et d'accessoires :**

Veuillez bien vérifier et contrôler que les éléments dont vous avez besoin sont complets suivant la liste d'éléments (merci de supprimer le film de protection en plastique avant d'installer les pièces, si nécessaire, notez et gardez le numéro de l'étiquette) :

**Prenez les précautions de sécurité nécessaires pour l'utilisation de ces instruments.**

## **Consignes à observer:**

- 1 Installez l'abri de jardin un jour sans vent et sans pluie. Il faut prévoir le montage à 2 personnes ou plus pour monter cet abri de jardin ;
- 2 Portez des gants de sécurité, des masques protecteurs et mettez des vêtements à manches longues pour le montage, afin d'éviter la blessure. Veuillez faire attention aux angles pouvant être coupants de certains éléments ;
- 3 Les enfants et les animaux domestiques ne doivent pas se trouver à proximité du lieu de montage.
- 4 Il est interdit de monter totalement sur la toiture. Il faut utiliser une échelle pour l'installation des plaques de toit. Manipulez l'échelle avec précaution afin de garantir la sécurité autour de vous.

## **Maintenance et entretien:**

- 1 Veillez à ce que les objets stockés dans votre abris de jardin ne soient pas trop sales. Si vous avez besoin de nettoyer votre abri de jardin, vous pouvez utiliser des chiffons doux et de l'eau claire si nécessaire.
- 2 Afin d'assurer une ouverture et une fermeture sans difficulté de la porte, veuillez contrôler la propreté des rails de porte, et déblayer les impuretés si nécessaire.
- 3 En cas de neige, il faut déblayer le toit régulièrement pour ne pas que la neige s'accumule et n'endommage les parois. En cas d'enneigement important, vérifier que vous puissiez rentrer en toute sécurité.
- 4 Cet abri de jardin doit être utilisé uniquement pour le stockage et en aucun cas comme surface habitable.

## Manual de montaje

Antes de la instalación, es necesario contactar con tu ayuntamiento para obtener la autorización necesaria. Gracias por leer y comprender la utilización de este manual. A lo largo de la guía, habrá trucos que te ayudarán a montar el producto de la manera más sencilla posible.

## Instrucciones de montaje

Las instrucciones de este manual contienen toda la información para construir el producto. Lea atentamente todas las instrucciones antes de empezar. Durante la instalación, siga los pasos indicados para obtener un resultado ideal.

## Piezas

Verifica que tengas todas las piezas necesarias para la construcción. Separa las piezas de las cajas y ordénalas tal y como se enumeran en la lista de elementos de este folleto. Estudia detenidamente cada pieza, así como los elementos de sujeción para facilitar el montaje.

Hay tornillos y piezas de sujeción adicionales en las cajas de cartón.

## PLAN A SEGUIR

### Presta atención al clima

Elige un día de clima tranquilo y seco. No intentes montar el producto si hace viento, ya que se podrían dañar los paneles o provocar lesiones. Ten especial cuidado con los suelos húmedos o grasos.

### Equipo de instalación

Se recomienda que el producto sea montado por 2 o más personas. Una persona puede colocar las piezas mientras que la otra puede manejar los tornillos y las herramientas.

### Elección de la ubicación

Si es posible, evita colocar el producto debajo de los árboles, lo que evitará que tengas que limpiar el techo y que las ramas rotas no lo dañen. Los árboles pequeños, los arbustos y los paneles opacos cercanos pueden ayudar a proteger el producto del viento.

### Preparación del sitio de montaje

- El lugar seleccionado debe estar preparado para instalar el producto. La base debe ser plana, sólida y estable.
- La base puede estar hecha de madera tratada u hormigón (recomendado). No montes la caseta directamente en el césped. El suelo puede volverse grasoso e inestable después de la lluvia. Si se construye una losa de cemento, tiene que tener una ligera pendiente para drenar el agua de lluvia y así evitar su estancamiento.
- Asegúrate de que la losa de cemento esté completamente seca antes de comenzar a instalar el producto.
- Si optas por una base de ladrillo, asegúrate de cementarlos para evitar posibles deformaciones en la estructura.

## INFORMACIÓN IMPORTANTE

- Encuentra alguien que te pueda ayudar. Así será más fácil y mucho más rápido sostener las piezas, colocarlas, repararlas, manipular las herramientas, etc. Además, algunas etapas del ensamblaje requieren levantar la estructura. Las piezas no son muy pesadas, por lo que se pueden manipular fácilmente.
- Tómate tu tiempo: querer ir demasiado rápido a menudo es peor y hará que tengas que repetir el proceso varias veces. Si nunca antes has construido este tipo de producto, ten cuidado y sé paciente para ensamblar las piezas correctamente.
- Equípate con las herramientas adecuadas.
- Idealmente, saca y clasifica todas las piezas antes de empezar con el ensamblaje. Colócalas en una manta o en láminas de plástico para evitar cualquier arañazo.
- Aprieta los tornillos con cuidado y asegúrate de no olvidarlos. Verifica que la estructura sea cuadrada usando un nivel de burbuja.

## Manuale d'uso

Prima del montaggio, è necessario contattare il Comune di residenza per dichiarare e ottenere l'autorizzazione ad hoc. Si raccomanda di leggere con attenzione questo manuale. Scorrendolo, troverai dei suggerimenti che ti aiuteranno a montare il prodotto in modo più semplice e confortevole.

## Istruzioni montaggio

Le istruzioni contenute in questo manuale contengono tutte le informazioni necessarie per la costruzione del tuo prodotto. Leggile tutte prima di iniziare. Durante l'assemblaggio, segui attentamente le fasi per un risultato ottimale.

## Componenti

Verifica di essere in possesso di tutti gli elementi necessari alla costruzione. Separa i pezzi dalla confezione e ordinali in base a come sono presentati sulla lista dei componenti del manuale. Studia attentamente ciascun componente e il relativo punto di aggancio per un utilizzo più semplice durante il montaggio. Gli agganci e le viti supplementari sono forniti nella confezione.

## PIANIFICAZIONE

### Consulta le previsioni del meteo

Scegli un clima calmo e secco. Non cercare di assemblare il prodotto quando vi sia vento, dal momento che lo stesso rischierebbe di danneggiare i pannelli o di generare incidenti. Attenzione al suolo umido o scivoloso.

### Team di montaggio

Quando ciò risulti possibile, 2 persone o più sono necessarie per il montaggio del prodotto. Una persona può posizionare i componenti mentre l'altra maneggia viti e strumenti.

### Scelta del luogo

Se possibile, evitare di posizionare il prodotto tra gli alberi, in modo di evitare di pulire spesso la tettoia dalle foglie morte e di subire danni generati da cadute di rami tagliati. Piccoli alberi, cespugli, pannelli opachi in vicinanza possono aiutare a proteggere il prodotto dal vento.

### Preparazione al montaggio

- Il luogo selezionato dev'essere pronto ad accogliere il prodotto. La base deve essere piana, solida e stabile nel tempo.
- Tale base può essere realizzata in legno trattato o in calcestruzzo (consigliato). Non montare la casetta direttamente sull'erba, dal momento che il suolo potrebbe divenire umido ed instabile dopo la pioggia. Se si costruisce una piastra in cemento, bisogna prevedere una leggera pendenza per smaltire l'acqua piovana e per evitare stagnazioni.
- Assicurati che la fondazione in cemento o calcestruzzo si sia stratificata prima di cominciare il montaggio del prodotto.
- Se decidi di utilizzare una base in mattoni o blocchi di cemento, assicurati di fissarli con precisione per evitare spostamenti nel tempo e future deformazioni della struttura.

## INFORMAZIONI IMPORTANTI

- Trova delle persone in grado di aiutarti. Sarà più rapido e facile maneggiare i componenti, posizionarli, fissarli, adoperare gli strumenti ecc... Alcune fasi del montaggio richiedono, tra l'altro, di sollevare la struttura. I componenti non sono troppo pesanti, bensì quasi alla portata di tutti.
- Prendi tutto il tempo necessario: andare troppo di fretta genera spesso errori che ti inducono a ripartire da zero diverse volte. Se non hai mai costruito questo tipo di prodotto prima, sii più attento e paziente per ottenere un montaggio ottimale.
- Si raccomanda di munirsi di strumenti adatti.
- Preferibilmente, estrai e separa tutti gli elementi prima di iniziare il montaggio. Disponili su un lenzuolo o su una copertura in plastica per evitare si generino graffi.
- Salda le viti con attenzione e assicurati di non aver dimenticato nulla. Verifica che la struttura sia a posto utilizzando una livella a bolla.

Bitte kontrollieren Sie vor der Montage alle Bestandteile Ihres Pakets und schauen Sie sich aufmerksam den Aufbauplan sowie die Sicherheitshinweise an, um den Aufbau einfach und schnell zu gestalten. Denken Sie auch daran, sich über die Vorschriften zur Baugenehmigung von Gartenhäusern in Ihrer Kommune zu informieren.

## **Aufbauanleitung:**

Bevor Sie mit dem Aufbau beginnen, lesen Sie aufmerksam Schritt für Schritt diese Anweisungen, um den Aufbau zu erleichtern und nicht unnötig Zeit zu verlieren.

## **Aufbauort:**

Ihr Gartenhaus muss auf einem ebenen und stabilen Fundament (idealerweise aus Beton) aufgebaut werden, um seine Stabilität und seine Witterungsbeständigkeit zu gewährleisten. Idealerweise ist der Ort, an dem Sie Ihr Gartenhaus aufstellen, windgeschützt und trocken, oder verfügt über ein wirksames Entwässerungssystem für Regenwasser.

## **Liste der Teile und des Zubehörs:**

Überprüfen Sie sorgfältig, dass alle zum Aufbau erforderlichen Teile, die Sie auf der Liste finden, komplett sind (bitte entfernen Sie die Schutzfolie, bevor Sie die Teile anbauen. Wenn nötig, notieren Sie sich die Nummer des Etiketts und bewahren Sie es auf):

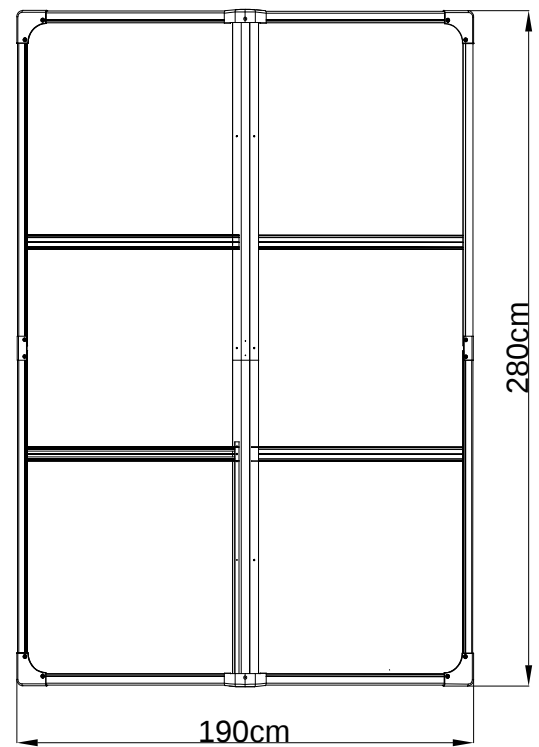

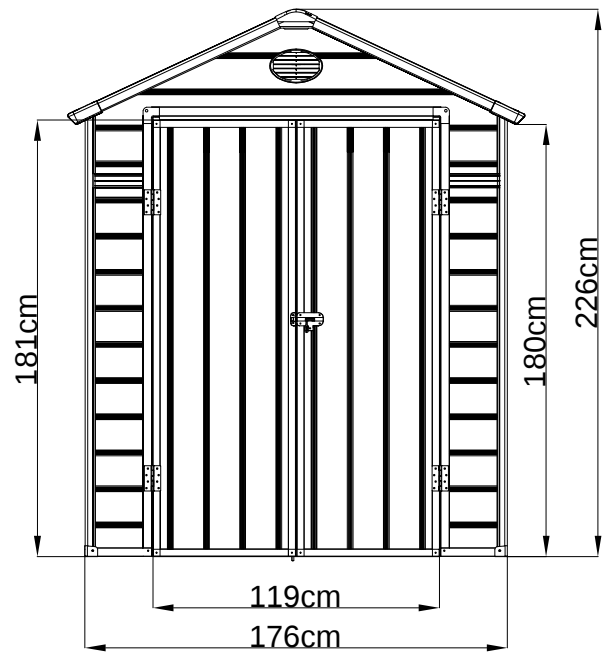

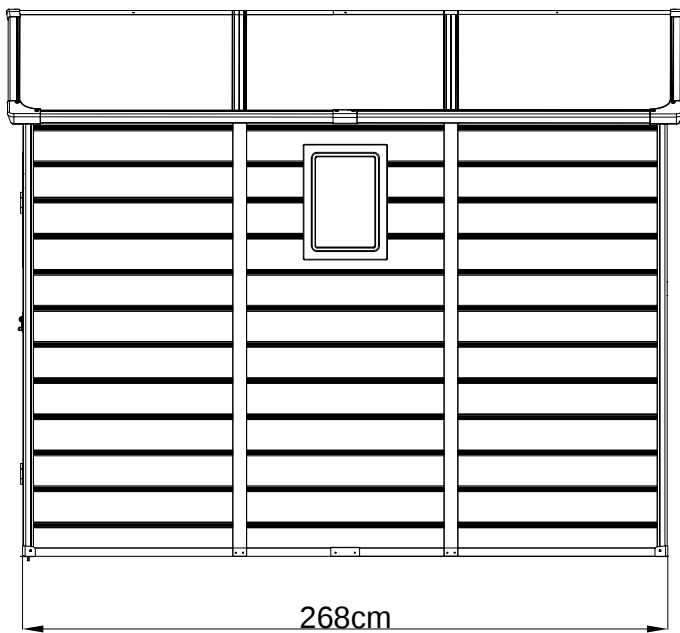

## **Treffen Sie die nötigen Vorsichtsmaßnahmen zum Gebrauch der Werkzeuge.**

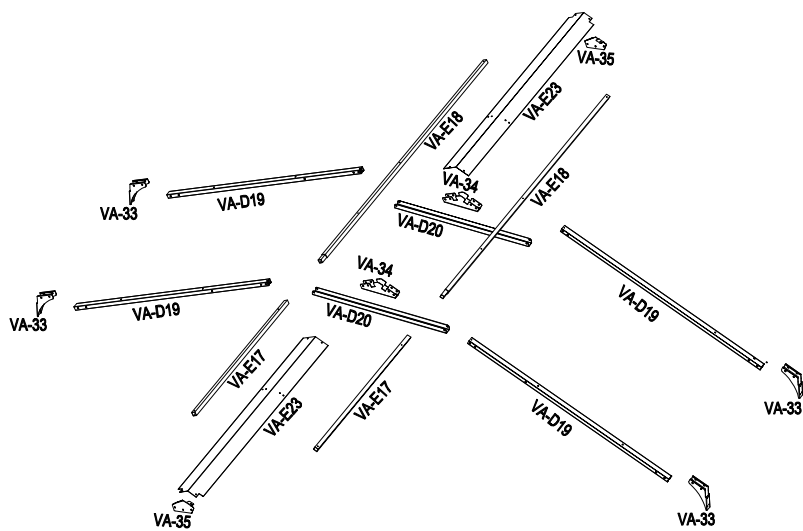

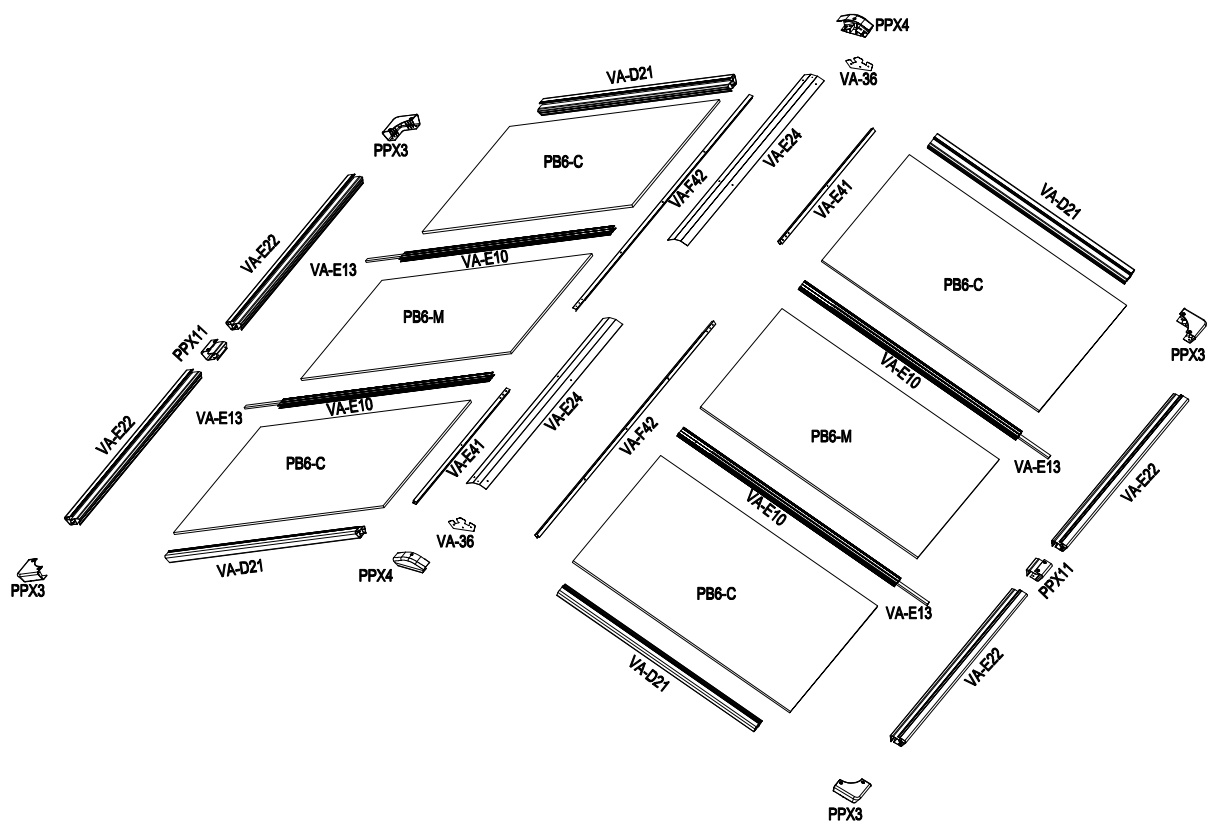

### **Beachten Sie folgende Punkte:**

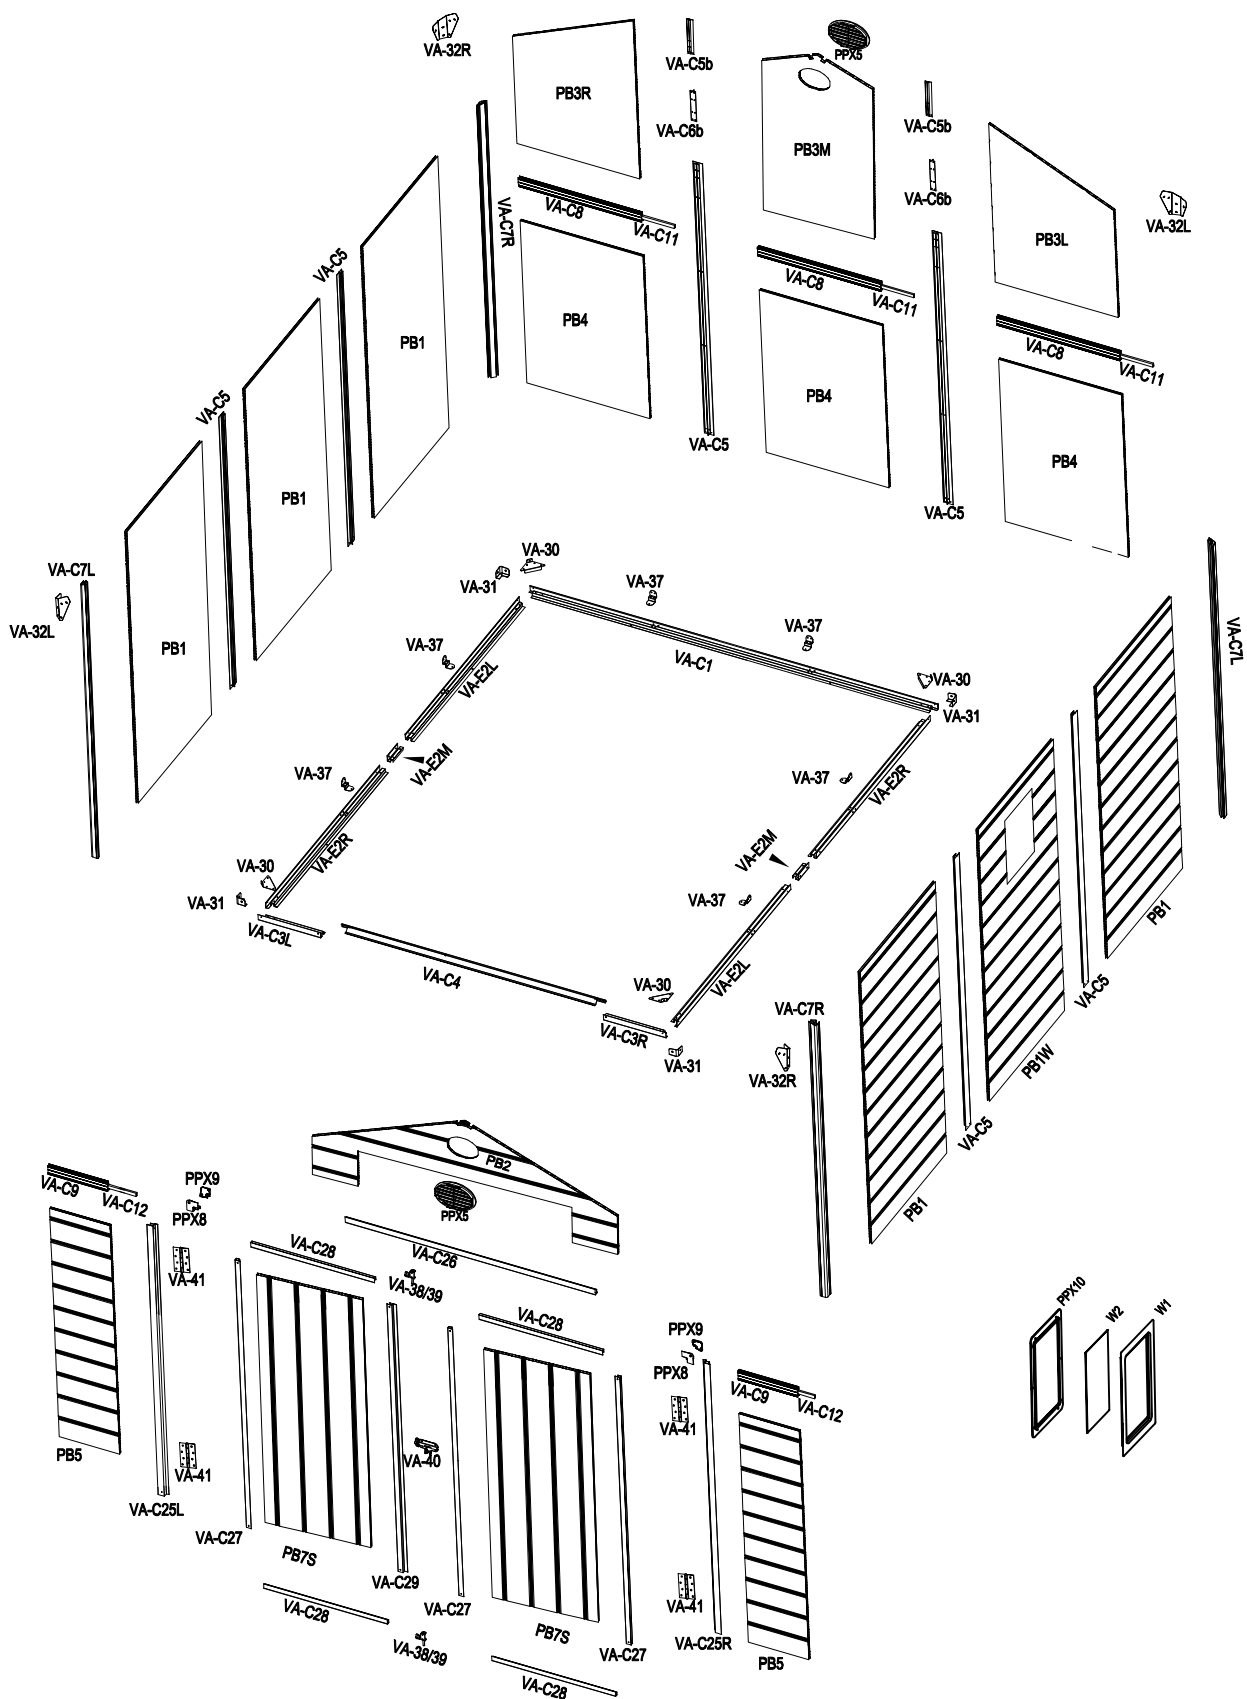

- 1 Bauen Sie das Gartenhaus an einem Tag ohne Wind und Regen auf. Es werden 2 oder mehr Personen zum Aufbau des Gartenhauses benötigt.
- 2 Tragen Sie Schutzhandschuhe, eine Schutzmaske und Kleidung mit langen Ärmeln, um Verletzungen zu vermeiden. Achten Sie auf scharfe Ecken einiger Teile.
- 3 Kinder und Haustiere sollten sich nicht in der Nähe des Aufbaus befinden.
- 4 Es ist nicht erlaubt, auf das Dach zu steigen. Es muss eine Leiter benutzt werden, um die Dachplatten anzubringen. Gehen Sie vorsichtig mit der Leiter um, damit Sie und Ihre Umgebung sicher sind.

### **Instandhaltung:**

- 1 Achten Sie darauf, dass die Gegenstände, die Sie in Ihrem Gartenhaus lagern, nicht zu verschmutzt sind. Wenn Sie Ihr Gartenhaus reinigen wollen, nutzen Sie dazu ein weiches Tuch und klares Wasser wenn nötig.
- 2 Kontrollieren Sie die Sauberkeit der Türschienen und räumen Sie sie wenn nötig frei, um das problemlose Öffnen und Schließen der Türen zu gewährleisten.
- 3 Bei Schnee muss das Dach regelmäßig freigeräumt werden, damit der Schnee sich nicht anhäuft und die Wände beschädigt. Bei beträchtlichem Schneefall überprüfen Sie, ob Sie sicher eintreten können.
- 4 Dieses Gartenhaus darf ausschließlich zur Lagerung genutzt werden und stellt keine Wohnfläche dar.
