

X-LARGE 16 Colors 3D Galaxy Lamp with Remote Control

USER MANUAL

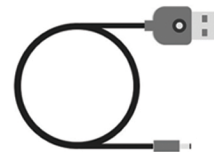

Thank you for choosing the X-Large Mind-Glowing Galaxy Lamp to beautify your home! We kindly ask you to read this instructions manual before testing the product out.

PACKAGE CONTENT

- 3D Galaxy lamp

- USB Charging cord

- Remote control

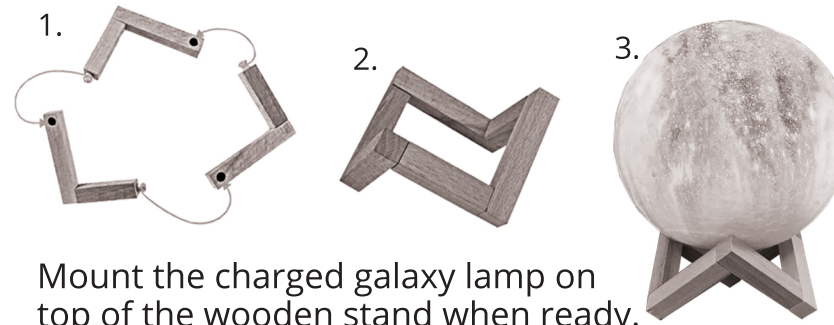

- Wooden stand

INSTALLATION AND USE

Wooden stand assembly:

Please assemble the wooden stand by following the diagram below

Mount the charged galaxy lamp on top of the wooden stand when ready.

The product can be operated either by touch or remote control, depending on your preference.

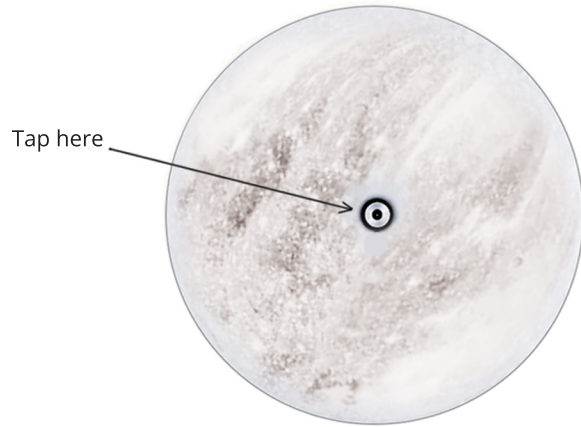

Charging instructions:

- Connect USB charging cord to your computer.
- The bottom of the lamp will light up blue while in charging mode. The light will then go off when the product is fully charged.

TOUCH CONTROL

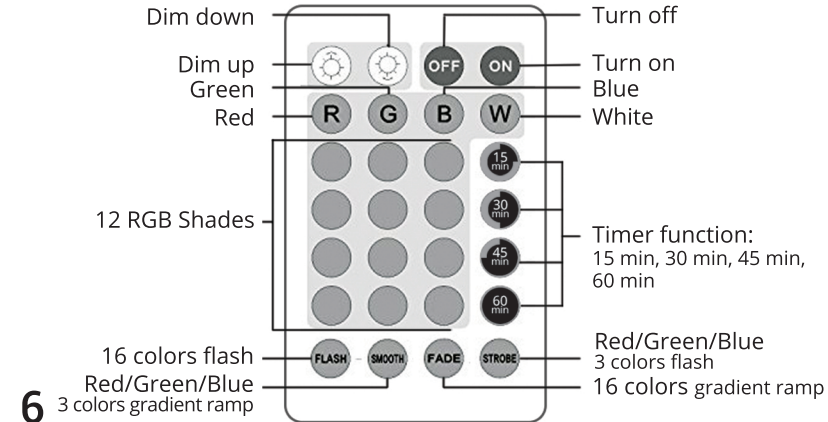

Tap the bottom of the lamp (charging port) to turn the lamp on or off or to switch between 16 color modes.

REMOTE CONTROL

- Use the remote to control the galaxy lamp from distance. It allows you to turn the device on or off, switch between 16 RGB colors, 4 light display modes, adjust brightness levels and set timers.
- Before using the remote make sure you have removed the plastic strip from its battery compartment.
- Point the remote at the galaxy lamp when attempting to use it.
