we've got you covered

we'd like to think that nothing ever goes wrong but here at Silentnight we understand that unfortunately sometimes things do.

If you do experience any manufacturing issues with your new bed or mattress, whether that's through faulty materials or less than perfect workmanship, we promise to repair or replace any part, or all of the product that is affected. We just kindly ask that you follow the care and usage instructions and follow the terms and conditions to this guarantee which are all found in this booklet.

Because we make many different mattresses and beds to suit every type of sleeper, the length of our guarantee slightly varies across each range. Take a look at the information on the previous page to see which guarantee length applies to your product.

If you're unsure what type of mattress you have purchased take a look at your receipt or you can also check the product label on the bottom of your mattress.

Wherever possible, replacement product will be like for like. However, if a particular style, material or model is no longer available we will substitute appropriately from our current range.

We will cover any manufacturing fault, faulty workmanship or materials on:

- Mattresses
- Upholstered divan bases
- Upholstered headboards

This guarantee only applies to products that has been purchased from an authorised Silentnight retailer in the UK and Republic of Ireland. The guarantee is only intended for domestic products purchased and used for domestic purposes. The product must have been used and cared for in accordance with our manufacturer's guidelines and instructions, you'll find the details you need in this booklet under the Care and Usage Instructions section. The full terms and conditions of your guarantee are also listed in this booklet, please take the time to read through them.

i’ve got a problem, how do I make a claim?

Before making a claim, please make sure you have your proof of purchase or delivery.

step 1

Please check where you purchased your product from and the terms and conditions under which you made that purchase. In the first year of purchase it is usual for your retailer to deal with your claim. Some retailers may offer longer than a one year guarantee, so always check with them first. If you purchased directly from Silentnight then this is of course ourselves. Your legal rights as a consumer are not affected by this guarantee.

step 2

In the first year of purchase please contact the retailer you purchased from to register your claim. If you are contacting a retailer other than ourselves please follow their instructions.

If you purchased directly from Silentnight or you are making a claim after the first year of purchase and within the manufacturer’s guarantee period (see information on earlier page) you can contact us directly to register your claim. Don’t forget to check the terms and conditions under which you made your purchase as some retailers may offer a guarantee that is longer than one year.

The easiest way to register a claim with us is via our website **silentnight.co.uk/guarantee**.

To register your claim with us you will need to have:

- Proof of purchase or delivery
- Photographs that you can upload to our website including:
 - The full product – please remove bed linen
 - Images of the issue you are concerned about
 - Image of the bed base with the mattress removed

step 3

Upon receipt of your claim through our website we will send you a confirmation email. Our customer services team will log your claim and confirm next steps.

how to care for your product

Our beds and mattresses are designed and tested to the highest British standards. We do this because we want you to enjoy a great night’s sleep, every night. To help maintain the quality and comfort of your mattress and bed, we’ve put together these care instructions for you:

getting used to your bed

Chances are that the springs and upholstery in your old bed were not what they used to be, so your new bed may seem a little strange at first. Please allow time for your body to adjust to your new bed and for the fillings to settle.

filling settlement is normal

The zoned spring system in your new mattress has been scientifically proven to offer optimum support and improve your spinal alignment and posture. Due to modern day fillings being more sumptuous than they used to be, you should expect to see a little settlement in the filling layers of your mattress, this is perfectly normal and there is no need to be concerned.

The main causes for settlement are caused by:

- Extra pressure in areas where body weight is most pronounced.
- Body heat and moisture, which can escalate settlement and slow down the recovery process of the fillings.

Ensuring that your mattress is cared for properly may help to reduce settlement:

- Only use your mattress with a suitable base, one which will provide suitable support like our upholstered divans.
 - *If you have a slatted bed frame please make sure the slats are at least 10cm wide and the gap between them is no more than 7.5cm to make sure you and your mattress are supported properly.
- If your mattress is double sided please turn and rotate it ‘top-to-toe’ regularly.
- If your mattress is single sided rotate your mattress ‘top-to-toe’ so that settlement from body pressures are evenly distributed.
 - *If you’re not sure if your mattress is double or single sided, check the label at the bottom of your mattress
- Air your mattress daily by pulling back the bed covers.

As with any soft furnishing product, your mattress will start to show settlement after several months of use. Whilst fillings may settle over time, the support system within your mattress will ensure that you receive many years of comfort.

let your mattress breathe

After its removal from the packaging, please leave your bed uncovered for a few hours to allow any odour or condensation to escape. To avoid risk of suffocation, please ensure that the polythene bag is well out of reach of children. The polythene bag is recyclable.

turn and rotate your mattress regularly

If you have purchased a double sided mattress it is important that you turn it over and rotate it from ‘top-to-toe’ once a week for the first two or three months and then monthly thereafter.

If you have purchased a single sided mattress this will just need rotating from ‘top-to-toe’ once a week for the first two or three months and then monthly thereafter.

*if you’re not sure if your mattress is double or single sided, check the label at the bottom of your mattress

This will prolong the lifespan of your mattress and ensure even settlement of the fillings.

When turning and rotating your mattress please ensure that you have assistance to avoid any accidents or the spring system becoming damaged within the mattress due to it falling on it’s side.

protect your mattress

We recommend that you use a breathable mattress protector, which will protect it from coming into contact with body moisture or other liquids. Silentnight offer a range of mattress protectors which you can buy from www.silentnight.co.uk/bedding.

do not use detergents or chemical cleaners

Using detergents or chemical cleaners on your mattress may damage the fabric and stitching. Unless otherwise stated your mattress cover is not removable or suitable for washing. If the mattress cover does state it is suitable for washing, please ensure you follow the instructions on the label attached to the product.

rolled mattress recovery

If you have purchased a rolled up mattress, please ensure that you unroll and place it on a bed in a warm room for 24 hours before use. After this time the mattress will fully regain its normal shape. Please note that recovery time will be faster when placed in a warm environment. The mattress cover should not be removed.

new mattress smell

It’s quite normal for new mattresses to have a slight odour when unpackaged. This is nothing to worry about and by airing the mattress you will find that any odours will pass.

do not bend or roll your mattress

Your mattress may be delivered flat or rolled. Specialist equipment is used to roll a mattress.

Please do not attempt to bend or re-roll your mattress yourself.

softening foam

If this is your first foam mattress, it may take a few days to get used to the feel as it is very different to a traditional spring mattress. Please be aware that slight softening of the foam may occur during the first few weeks but this should not be a cause for concern.

foam discolouration

Over a period of time, you will notice a yellowing of the foam. This is perfectly normal and is due to the properties within the foam, it will not affect either the quality or performance of your mattress.

do not overload or overfill drawers

If your bed has drawers, they have been designed to take lightweight items only. Excessive weight can cause distortion or damage to the drawers. Overfilling them may cause them to jam. Maximum weight: Mini drawers - 7kg. Standard drawers - 15kg. Our ottoman beds have a maximum fill weight of 40kg and this should be spread evenly.

upholstery

Woven fabrics - Our luxurious woven fabrics have a soft, rich texture. These fabrics should be specialist cleaned only.

Velour - A soft and silky fabric with fabulous plush texture. Take care when handling this tactile fabric as it can ‘bruise’. You can gently brush it using a soft suede brush to remove any surface dust. Should you need to remove any stains or marks please contact a specialist cleaner.
